

# TORRENT LIGHT MOUNT - CLOUD DEFENSIVE TORRENT SBR LIGHT MOUNT PICATINNY BLACK

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Accessory Mounts](#)

The Cloud Defensive "Torrent series". Manufactured for us by Impact Weapons Components. The best, most versatile and strongest light mounts in the industry, at the best price. Depending on your needs, Cloud Defensive is confident they have a mounting option for you. Compatibility All Torrent mounts work with the Cloud Defensive REIN1.0/2.0/3.0 and REIN Micro 1.0/2.0/3.0 Works with all Surefire® M300 & M600 Scout lights® \*\*Except M600 AA\*\* Works with Streamlight® Protac Rail Mount 1, Rail Mount 2 and HL-X \*\*Except the Torrent Inline Mounts. These only work with the Rail Mount 1 and Rail Mount 2. NOT THE HL-X\*\* Works with most other replacement light bodies that use the Scout Light® mounts style. Durability CNC machined from Certified 6061-T6 billet aluminum Mil-Spec Type III Hardcoat anodized finish (black anodized per mil-spec mil-a-8652) Light Mount Features Torrent AFR M-Lok® The Torrent Africa mount is a specialized solution developed by Cloud Defensive and Impact Weapons Components at the request of Eco Defense Group and the Park Rangers of Kruger National Park in South Africa. It is a specialized offset mount that plays nicely with their FAL handguards. It also works great for the SCAR, MCX, MPX, AK, Scorpion and pretty much any other non-AR platform. The Torrent Africa mount also works great for AR rifles that incorporate a BE Meyers MAWL. The user can mount the Torrent Africa at the 430PM position on the rail and roll their weapon mounted light nicely underneath that MAWL. WEIGHT 0.600 Torrent Inline M-LOK® \*\*For Use With M-LOK® Rails\*\* Directly attaches to any M-LOK® compliant rail surface Ambidextrous with 7 total mounting solutions on 7 sided M-LOK® rail system 4 light mounting positions provide .265" of lateral adjustment Forward mounting design is low profile, lightweight and does not impede weapons manipulation Mount does not interfere with the operation of front back-up iron sights The Torrent Inline light mount is a very traditional mount which acts as a direct mounting option for your light. Instead of requiring a rail section to be added to you M-LOK® rail, you can use this mount. To provide the highest level of supporting structure, this mount should be attached in a way that it does not have any portion hanging off the rail. If it hangs off the rail, it does run a risk of being bent under pressure. The Inline mount plays well with most IR devices including the B.E. Meyers MAWL, L3 PEQ-15, L3 NGAL, Steiner DBAL and many others. WEIGHT 0.711 oz. Torrent Offset M-LOK® \*\*For Use With M-LOK® Rails\*\* 6 light mounting positions provide .626" of lateral adjustment to clear all laser aiming devices Positions the light as close to the firearm bore or APITAL as possible Offset mount positions light at optimized 45 degree angle for ergonomic activation Ambidextrous with 6 total mounting solutions on 3 sided M-LOK® rail system Low profile, lightweight and does not impede weapons manipulation Light mount does not interfere with the operation of front back-up iron sights The Torrent Offset M-LOK® mount is one of the strongest mounts that Cloud Defensive offer. This mount is normally attached to the rail at the 3 O'clock or 9 O'clock position and holds the light around the 1:30 and 10:30 positions, respectively. There are unique mounting options with this that make it a possibility for use with the previously mentioned IR devices as well. WEIGHT 0.653 oz Torrent SBR Picatinny Light Mount \*\*For Use With 1913 Picatinny Rails\*\* 3 light mounting positions provide .250" of lateral adjustment Cantilevered mounting design shifts light forward of mount, increasing usable rail space. Light offset optimized at a 45 degree offset for

ergonomic activation Ambidextrous with 8 total mounting solutions on 4 sided 1913 picatinny rail system Low profile, lightweight and does not impede weapons manipulation Positions the light as close to the firearm as possible Mount does not interfere with the operation of front back-up iron sights The Torrent SBR Picatinny Rail Light Mount is designed to push the light body forward and in fact uses the same body attachment style as the SBR M-LOK® but mounts to Picatinny instead of M-LOK®. Because of that, it provides the user with the ability to mount the light tighter to the rail on a Quad rail setup. You can run this mount on the top rail, hanging to the left or right of the rail. You can also run this on either side rail pushing the light up and in towards the barrel. WEIGHT 1.011 oz."

## Attributes

- Name: [CLOUD DEFENSIVE TORRENT SBR LIGHT MOUNT PICATINNY BLACK](#)
- Manufacturer: [CLOUD DEFENSIVE](#)
- Product no.: 430107166
- Mfr. No.: TOR-PIC-SBR BLK
- Finish: Black
- Style: Picatinny
- Delivery weight: 0.454kg
- Shipping height: 25mm
- Shipping width: 76mm
- Shipping length: 25mm
- UPC: 850016201416

# TORRENT LIGHT MOUNT CLOUD DEFENSIVE TORRENT SBR LIGHT MOUNT PICATINNY BLACK

## Safety Instruction Guide

### Introduction

Thank you for choosing the TORRENT LIGHT MOUNT. This guide outlines essential safety instructions to ensure safe and effective use of the product. Please read the entire guide carefully to understand the proper handling, installation, and maintenance of the light mount.

### General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in this guide.
- Regularly inspect the light mount for any signs of wear or damage before each use.
- Keep the light mount out of reach of children and vulnerable individuals to prevent accidental injury.
- Do not modify or alter the light mount in any way, as this may compromise its safety and functionality.
- Store the light mount in a cool, dry place when not in use to prevent damage.

### Specific Safety Precautions for Use

- **Compatibility:** Ensure that the light mount is compatible with your firearm and light systems before installation.
- **Secure Attachment:** Always ensure the mount is securely attached to the rail system to prevent accidental detachment during use.
- **Weight Limitations:** Be aware of the weight limits of the mount; do not exceed the recommended weight capacity to avoid failure.
- **Avoid Obstructions:** Ensure that the light mount does not obstruct the operation of front backup iron sights or any other firearm components.
- **Use Protective Gear:** When handling firearms, always wear appropriate protective gear, including eye protection.

### Instructions for Installation and Usage

#### Installation

1. **Preparation:** Verify that your firearm is unloaded and safe to handle before beginning installation.
2. **Select Mounting Position:** Choose an appropriate position on the rail for the light mount based on your preference and firearm configuration.
3. **Attach the Mount:**
  - For MLOK® rails:
    - Align the Torrent Inline or Offset mount with the desired MLOK® slots.
    - Insert the mounting screws and tighten securely.
  - For Picatinny rails:
    - Align the Torrent SBR Picatinny Light Mount with the desired rail section.
    - Use the provided screws to attach the mount securely.
4. **Check Stability:** After installation, ensure that the mount is stable and does not wobble or shift.

#### Usage

- **Light Activation:** Familiarize yourself with the activation method of the light mounted on the TORRENT LIGHT MOUNT to ensure quick and safe operation.
- **Regular Maintenance:** Periodically check the mount and light for any signs of wear or damage. Clean as necessary to maintain optimal performance.

## **Disposal Instructions**

- Dispose of the light mount in accordance with local regulations regarding electronic waste and materials.
- If the product is damaged beyond repair, ensure that it is disposed of safely to prevent environmental harm.

## **Contact Information for Further Support**

For any safety inquiries or support related to the TORRENT LIGHT MOUNT, please refer to the manufacturer's contact information provided on the packaging or official website.

By following these safety instructions, you can ensure the safe and effective use of the TORRENT LIGHT MOUNT. Thank you for your attention to these guidelines.
