

SENTINEL II 1X20MM MICRO REFLEX SIGHT - SWAMPFOX OPTICS

SENTINEL II 1X20MM RED 3 MOA DOT BLACKOUT REAR MICRO SIGHT

[Optics & Mounting](#) > [Electronic Sights](#) > [Reflex Sights](#)

Crafted for concealed carry, Sentinel II showcases a fusion of advanced features in a sleek, cohesive design. The second-generation micro dot maintains a standardized RMSc footprint and slimline profile while maximizing visibility with a larger 20mm window. Uniquely equipped with a patented removable rear sight guide installed in front of the window, the guide provides backup support for pistols that sacrifice rear iron sights for dot sight compatibility. Sentinel II displays a 3 MOA dot in red or green illumination and is equipped with Shake N' Wake auto on/off functionality for grab-and-go readiness.?

Safety Instruction Guide for SENTINEL II 1X20MM MICRO REFLEX SIGHT

Introduction

Thank you for choosing the SENTINEL II 1X20MM MICRO REFLEX SIGHT from Swampfox Optics. This guide provides essential safety instructions and information to ensure the safe use of your product. Please read this guide thoroughly before using the sight to familiarize yourself with safety precautions and proper usage.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as a reflex sight for firearms.
- Always follow local laws and regulations regarding the use of firearms and accessories.
- Store the sight in a secure location when not in use to prevent unauthorized access, especially by children.
- Regularly inspect the sight for any signs of damage or wear before each use.
- If the sight is damaged or malfunctions, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- **Eye Protection:** Always wear appropriate eye protection when using firearms equipped with the sight.
- **Mounting:** Ensure the sight is securely mounted to the firearm before use. Follow the manufacturer's mounting instructions carefully.
- **Illumination:** Use the illumination settings responsibly. Do not use excessive brightness that may distract or impair your vision.
- **Battery Handling:** Handle the CR2032 battery with care. Avoid shortcircuiting and store batteries out of reach of children.
- **Environmental Conditions:** The sight is rated IPX 7 for waterproofing. However, avoid exposing it to extreme conditions that may affect its performance.
- **Parallax:** Be aware that the sight is parallax free at 33 yards. Always aim and align your sight properly for accurate shooting.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded before installation.
- Locate the RMSc footprint on your firearm.
- Align the sight with the mounting points and secure it using the appropriate screws.
- Confirm that the sight is firmly attached and does not move.

2. Usage:

- Turn on the sight using the Shake N' Wake feature. Simply move the sight to activate it.
- Adjust the brightness settings to your preference using the designated controls.
- Aim through the 20mm window and align the red or green 3 MOA dot with your target.
- After use, turn off the sight to conserve battery life.

Disposal Instructions

- Dispose of the sight and its components in accordance with local regulations.
- For battery disposal, follow your local guidelines for electronic waste and battery recycling.
- Do not dispose of the sight or batteries in regular household waste.

Contact Information for Further Support

For any safety inquiries or support regarding your SENTINEL II 1X20MM MICRO REFLEX SIGHT, please reach out to the designated EU contact point provided by the manufacturer.

By following these safety instructions, you can ensure a safe and enjoyable experience with your SENTINEL II 1X20MM MICRO REFLEX SIGHT. Always prioritize safety and responsible usage. Thank you for your attention to these guidelines.
