

BRAVO CHASSIS 9MM LUGER FOR SIG SAUER P320® - STRIKE INDUSTRIES BRAVO CHASSIS 9MM LUGER FOR SIG SAUER P320 FDE

[Handgun Parts](#) > [Grip Parts](#) > [Grips](#)

The Strike Modular Chassis (SMC) - BRAVO for SIG Sauer P320 by Strike Industries is a new lite version of the MOST MODULAR P320 (SMC Alpha) Chassis in the WORLD at a fraction of the Alpha's price. Customer feedback was heavily weighed and taken into consideration when Strike Industries developed this chassis so when they say the Bravo was made with the user in mind, they mean it. The new SMC Bravo is made of Polymer Extreme™ which is durable and lightweight — intended to receive P320 FCU's and slides to complete the entire ensemble. This time around users can fully utilize their P320 optics-ready slides to effortlessly install their red dot sights! In terms of upgraded features in the Bravo, the ergonomics have improved with a textured grip which now includes a built-in flared magwell to assist with quick and smooth reloads. Strike Industries optional Ambidextrous Side Charging Handle with a Slide Cover Mount for the P320 is also compatible so each Bravo user can decide which side they want to rack the slide with. This chassis also more universally accepting of many different types of P320 magazines. Users will enjoy the integrated gas pedal above the Picatinny rail to help fight muzzle flip, allowing for faster follow-up shots. Derived from the SMC Alpha, the Bravo remains consistent as it comes with the SMC Rear Module Backstrap molded onto the new chassis as one solid piece. It offers users rear ambidextrous QD sockets and a Picatinny rail mount, perfect for attaching various accessories like their Strike Dual Folding Stock/Brace. The ambi QD sockets in the rear can be used with slings and can even have a lanyard or paracord strung through it (in case you want to hang this up somewhere quickly accessible). Whether you're looking to scratch that sci-fi itch, if you're a Sig fan, or just want a PDW option, the Bravo is a ton of fun and lives up to its hype. Get your SMC BRAVO today before they sell out! FEATURES Ambi QD sockets at the rear w/ loop-thru design so its possible to loop a lanyard or paracord. Built-in magwell for better magazine feeding. Flat magazine hole opening; this make the grip module able to use more different types of P320 magazines. Works with Ambidextrous Side Charging Handle with Slide Cover Mount. Extended picatinny rail located at front bottom of chassis and on Rear Module Backstrap for accessories. Compatible with optional Spare Magazine Holder for SIG SAUER P320 with SI Modular Magazine Release. SMC Bravo for SIG SAUER P320 uses SIG SAUER P320 OEM fitment takedown lever and P320 magazine release, SI Modular Magazine Release is pre-assembled and included. COMPATIBILITY: Calibers: 9mm/.357SIG/.40S&W FCU: All SIG SAUER P320 FCUs which include XSeries as well as M17/M18 with complete function of the manual safety. For SMC use with M17/M18 manual safeties, the notch on the chassis is visible and outlined as a guide for the modification needed to be performed for the manual safeties to be usable. Triggers: Strike Industries only guarantee proper fit and function with SIG SAUER OEM triggers. Strike Industries cannot guarantee safety and function on aftermarket triggers and components. The SMC is made to fit the OEM standards of the SIG SAUER FCU. Slide Lengths: The SMC will work with all P320 slides and barrel lengths but is best matched on the BRAVO for SIG SAUER P320 (Full-Size Length Slides) with 4.7"" barrels or SIG SAUER P320 (Carry Size Length Slides) with 3.9"" threaded barrels combined with a compensator. While the subcompact 3.6"" barrel/slides will also work with the Bravo Strike Industries do not recommend

this as the frame would be longer than your slide even if it had a compensator. If you decide to use a slide shorter than the Full-Size length they highly recommend purchasing the Strike SMC Blast Shield to protect your support hand's thumb. Magazine Compatibility: P320 17-round, 18-round, 21-round and Full Size 10/17-round magazines Holsters: The SMC Bravo's general silhouette can fit in a variety of holsters, however, it depends on what accessories are installed (i.e. magholder, optic, light, charging handle) as kydex molds also vary between brands. NOT COMPATIBLE: 45ACP FCU/Calibers 10mm FCU/Calibers Compact 15 and 10-round magazines SMC Alpha frame mounted muzzle devices SMC Alpha Magwell WARNING: Be careful of thumb/hand placement near any moving parts on the Strike Module Chassis/grip module. Misuse or improper placement can cause disfigurement or death. Before every use, always check proper function and that all screws/hardware is secure. Maintain and check all screws/hardware and components regularly as preventative maintenance. Always have your weapon SAFE when not being fired. Always follow all firearms safety rules and never point your weapon at anything you are not willing to destroy. The user is responsible for the modification required to use the M17/M18 manual safeties. The Strike Modular Chassis (SMC) has a visible outline for the shape to fit the M17/M18 manual safeties. Strike Industries only recommends all work be done by a certified gunsmith. Be aware that once you remove material in the SMC chassis for the M17/M18 notch, you cannot go back and there will always be a notch for the manual safeties once the modification is done to the SMC chassis. DISCLAIMERS: Strike Industries are not lawyers and do not give any legal advice. Always be aware of federal, your state, and local laws. The Strike Modular Chassis (SMC) BRAVO for SIG SAUER P320 by Strike Industries is NOT A FIREARM. This is a grip module/chassis system made to work with SIG SAUER P320 FCU's and slides. Users will have to supply your own complete P320 slide w/ barrel, FCU, and magazine. The SMC BRAVO is not a serialized product. The Strike Mag Holder and Dual Folding Adapter are optional Strike Accessories that are compatible with the SMC BRAVO. Safety Instruction Guide for BRAVO CHASSIS 9MM LUGER FOR SIG SAUER P320

Introduction

Thank you for choosing the Strike Modular Chassis (SMC) BRAVO for SIG Sauer P320. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this manual carefully before installation and use.

General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Ensure your weapon is pointed in a safe direction at all times.
- Keep your finger off the trigger until you are ready to shoot.
- Store your firearm securely and out of reach of children.
- Maintain your weapon regularly to ensure proper function.
- Check for any visible damage or wear before use.
- Always follow all local laws and regulations regarding firearm use and ownership.
- Be aware of your surroundings and ensure a clear shooting area.

Specific Safety Precautions for Use

- **Thumb/Hand Placement:** Be cautious of thumb and hand placement near any moving parts on the chassis. Improper placement can lead to injury.
- **Modification Warning:** Users are responsible for any modifications required for the M17/M18 manual safeties. Only certified gunsmiths should perform these modifications.
- **Compatibility Check:** Ensure that you are using compatible components (e.g., FCU, slide, magazines) as outlined in this guide.
- **Use of Aftermarket Parts:** Strike Industries does not guarantee safety or function with aftermarket triggers or components.
- **Slide Length Caution:** If using a slide shorter than the fullsize length, it is recommended to use the Strike SMC Blast Shield to protect your support hand's thumb.

Instructions for Installation and Usage

1. Installation of the Chassis:

- Ensure the firearm is unloaded and safe to work on.
- Remove the existing grip module from your SIG Sauer P320.
- Align the BRAVO chassis with the FCU and slide.
- Securely attach the chassis, ensuring all screws and hardware are tight.

2. Using the Chassis:

- Install your opticsready slide onto the chassis.
- Ensure the magazine is properly seated in the builtin magwell for better feeding.
- Utilize the ambidextrous side charging handle if desired.
- Adjust your grip to engage the integrated gas pedal for improved control during firing.

3. Regular Maintenance:

- Regularly check all screws and hardware for tightness.
- Clean the chassis and components as needed to prevent buildup of dirt and debris.

- Inspect the chassis for any signs of wear or damage before each use.

Disposal Instructions

- Dispose of the chassis and any components in accordance with local regulations.
- Do not dispose of in regular household waste.
- Consider recycling options where available.

Contact Information for Further Support

For any safety inquiries or concerns regarding the BRAVO chassis, please contact the manufacturer directly. Ensure to have your product details ready for reference.

By following these guidelines and instructions, you can enjoy the benefits of your BRAVO CHASSIS 9MM LUGER FOR SIG SAUER P320 safely and effectively. Thank you for your attention to these important safety measures.
