GUARDIAN™ OPTIC MOUNT & GUARD The GUARDIAN is the strongest optic mounting system on the market. TRU-SEAL™ eliminates the need for an added sealing plate. O-rings on the mounting screws hold the plate watertight to the slide, sealing out moisture, eliminating corrosion in the mounting threads. Our STUD-LOK™ threaded stud/nut mounting interface is the most secure system on the market. This provides much longer thread engagement, greater hold down power, with increased shear resistance. SIX™ BACK-UP SIGHTS SIX™ back-up sights (BUS) seamlessly integrate into the Guardian Optic Mounting System providing rapid, reliable, and precise target acquisition in scenarios of red dot optic malfunction. Featuring anti-glare, anti-snap and ultra low co-witness design, SIX™ sights lie inconspicuously in wait until you need to deploy them. Like a wingman when things aren't going as planned, SIX™ has your six. MATERIALS 7075 Aluminum Type III Hard Anodized Guard/Plate Custom Machined SS Fasteners with Oversized Torx Sockets INCLUDES 2 - Plate Mounting Screws 2 - TRU-SEAL™ O-Rings 2 - STUD-LOK™ Studs 2 - STUD-LOK™ Self-Locking Sleeve Nuts
