

INLINE BULLET FEEDER DIES ONLY - LEE PRECISION 24 CALIBER INLINE BULLET FEED DIE ONLY

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

All steel construction featuring a ball bearing escapement mechanism. Spring loaded positive ball carrier return assures reliable operation. Jacketed, cast, powder coated and copper plated bullets are reliably fed. Configurable for long and short bullet lengths. Includes support tab for the optional multi tube feed magazine. Works in any press with standard 7/8-14 threads. Each die is caliber specific so there is nothing to change or adjust. Easy adjustment, place a case in your press and screw the Inline die in until it drops a bullet plus a half a turn, and that's it.

INLINE BULLET FEEDER DIES ONLY Safety Instruction Guide

Introduction

Thank you for choosing the INLINE BULLET FEEDER DIES ONLY from LEE PRECISION. This product is designed to enhance your reloading experience by providing reliable bullet feeding for your 24 caliber ammunition. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always follow the manufacturer's instructions and guidelines when using the product.
- Ensure that the product is used in a wellventilated area.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage before use.
- Report any unsafe product conditions to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Identification:** The INLINE BULLET FEEDER DIES ONLY may pose risks if not used correctly. Potential hazards include:
 - Injury from moving parts during operation.
 - Misalignment causing bullets to jam or misfeed.
- **Avoiding Hazards:**
 - Always ensure that the die is securely mounted to the press before use.
 - Do not place hands or other body parts near the die while the press is in operation.
 - Use appropriate protective gear, such as safety glasses, while reloading.
 - Do not attempt to modify or disassemble the die.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is clean and free from debris.
- Locate the standard 7/814 threads on your press.
- Screw the INLINE BULLET FEED DIE into the press until it is securely fastened.
- Adjust the die by placing a case in the press and screwing the die in until it drops a bullet, plus a half turn.

2. Usage:

- Load the appropriate bullets (jacketed, cast, powder coated, or copper plated) into the feeder.
- Ensure that the springloaded ball carrier is functioning properly.
- Operate the press according to the manufacturer's instructions while monitoring the feeding process.
- If a bullet does not feed correctly, stop operation and inspect for jams or misalignment.

3. PostUsage:

- After use, clean the die to remove any residue or debris.
- Store the die in a safe, dry location away from children.

Disposal Instructions

- Dispose of the product in accordance with local regulations for metal and reloading components.
- Do not dispose of the product in regular household waste.
- Contact local recycling centers for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the INLINE BULLET FEEDER DIES ONLY, please refer to the manufacturer's contact information provided with your product packaging.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience. Thank you for your commitment to safety and responsible use of the INLINE BULLET FEEDER DIES ONLY.
