

1911 45 ACP FLAT WIRE RECOIL SPRING - ED BROWN 1911 COMMANDER 45 ACP 18# FLAT WIRE RECOIL SPRING

[Handgun Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

The flat wire spring for 1911 handguns is a must for any handgun enthusiast or full time shooter. Manufactured from Chrome Silicon alloy to maximize spring longevity and load. The longest lasting handgun recoil spring made - up to ten times greater service life than a conventional coil spring. Other benefits of switching from conventional round wire to flatwire include improved cycling and more tolerant to a wider variety of loads. Intended for use with our flat wire guide rod system. Recommended spring replacement at 30,000-40,000 rounds. Will not work with a standard recoil spring guide and plug, only the flat wire guide rod and plug.

Safety Instruction Guide for 1911 45 ACP Flat Wire Recoil Spring

Introduction

Thank you for choosing the 1911 45 ACP Flat Wire Recoil Spring by ED Brown. This product is designed to enhance the performance of your 1911 Commander handgun. To ensure safe usage and optimal performance, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that you are familiar with the operation of your handgun before installing or using this recoil spring.
- Always treat your handgun as if it is loaded, even when it is not.
- Keep firearms out of reach of children and unauthorized users.
- Regularly inspect your recoil spring for wear and damage.
- Use only compatible components with the flat wire recoil spring to avoid malfunctions.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay updated on product recalls via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Only use the flat wire recoil spring with the designated flat wire guide rod and plug.
- Do not attempt to use this recoil spring with a standard recoil spring guide and plug.
- Replace the recoil spring every 30,000 to 40,000 rounds to maintain optimal performance.
- Be aware of the specific load requirements for your handgun and ensure that the spring is compatible with your ammunition.
- Avoid using damaged or worn springs, as they can lead to firearm malfunctions.
- If you experience any unusual behavior from your firearm while using this recoil spring, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Ensure the handgun is unloaded and pointed in a safe direction.
- Gather necessary tools, including a flat wire guide rod and plug.

2. Installation:

- Remove the existing recoil spring and guide rod from the handgun.
- Insert the flat wire guide rod into the recoil spring housing.
- Place the flat wire recoil spring onto the guide rod, ensuring it is seated properly.
- Install the flat wire plug securely to hold the spring in place.

3. Usage:

- After installation, perform a function check of your handgun to ensure proper operation.
- Regularly inspect the recoil spring during routine maintenance.

4. PostUsage:

- Clean the handgun and inspect the recoil spring for signs of wear after each shooting session.

Disposal Instructions

- Dispose of the recoil spring responsibly according to local regulations.
- Do not dispose of the recoil spring in regular household waste.
- Contact local waste management authorities for guidance on proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product performance, please refer to the official ED Brown website or contact your local dealer. Always ensure you have the latest information and updates regarding your product.

Thank you for prioritizing safety with your 1911 45 ACP Flat Wire Recoil Spring. Enjoy your shooting experience responsibly!
