

UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES - UNIVERSAL LOCKING DIE RING 7/8" FOR TURRET PRESS 1-PACK

UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES Since their release, the ZERO Die Rings have been a massive success, and remain the IDEAL die ring for ZERO press owners. One problem though – if you have a T7 or Lyman All-American turret press, Area 419's ZERO Rings are too big! Too girthy, it happens. So now Area-19 have taken the same design principles, made them JUST a bit smaller, and now you can enter the fold with other turret presses. Just like Area 419's ZERO Die Rings, these are torque-locking rings with the largest possible surfaces contacting the turret head, encouraging superior alignment of a die relative to a turret head, and removing a set screw or split ring to possibly induce misalignment.

Attributes

- Name: UNIVERSAL LOCKING DIE RING 7/8" FOR TURRET PRESS 1-PACK
- Manufacturer: AREA 419
- Product no.: 430112724
- Mfr. No.: 419-UNIV-7/8RING
- Delivery weight: 0.136kg
- Shipping height: 25mm
- Shipping width: 102mm
- Shipping length: 152mm
- UPC: 850002933871

Safety Instruction Guide for UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES

Introduction

Thank you for choosing the UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES. This product is designed to enhance your reloading experience while ensuring safety and efficiency. Please read this safety instruction guide carefully to understand how to use the die ring safely and effectively.

General Safety Guidelines

- Ensure that the die ring is compatible with your turret press model before use.
- Always inspect the die ring for damage or wear before installation.
- Keep the die ring out of reach of children and vulnerable individuals.
- Do not attempt to modify or repair the die ring yourself.
- Follow all local regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- Use the die ring only for its intended purpose with compatible turret presses.
- Avoid using excessive force when tightening the die ring to prevent damage.
- Ensure that the turret press is securely mounted and stable before use.
- Wear appropriate safety gear, such as safety glasses, when operating the turret press.
- Keep your work area clean and organized to prevent accidents.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the die ring and your turret press.
- Ensure your work area is clean and welllit.

2. Installation:

- Remove any existing die ring from your turret press, if applicable.
- Align the UNIVERSAL 7/8" DIE RING with the turret head.
- Gently place the die ring onto the turret head, ensuring it fits snugly.
- Use the torquelocking mechanism to secure the die ring in place. Avoid overtightening.

3. Usage:

- Load the turret press according to the manufacturer's instructions.
- Check the alignment of the die relative to the turret head before starting your operation.
- Operate the turret press according to its user manual, ensuring safety precautions are observed.

4. PostUsage:

- After use, remove the die ring if necessary and store it in a safe location.
- Inspect the die ring for any signs of wear or damage. Replace if necessary.

Disposal Instructions

- Dispose of the die ring in accordance with local waste disposal regulations.

- Do not dispose of the die ring in regular household waste if it contains hazardous materials.
- Consider recycling options if available in your area.
