

UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES - AREA 419

UNIVERSAL LOCKING DIE RING 7/8" FOR TURRET PRESS 1-PACK

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES Since their release, the ZERO Die Rings have been a massive success, and remain the IDEAL die ring for ZERO press owners. One problem though - if you have a T7 or Lyman All-American turret press, Area 419's ZERO Rings are too big! Too girthy, it happens. So now Area-19 have taken the same design principles, made them JUST a bit smaller, and now you can enter the fold with other turret presses. Just like Area 419's ZERO Die Rings, these are torque-locking rings with the largest possible surfaces contacting the turret head, encouraging superior alignment of a die relative to a turret head, and removing a set screw or split ring to possibly induce misalignment.

Safety Instruction Guide for UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES

Introduction

Thank you for choosing the UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES by AREA 419. This product is designed to enhance your reloading experience by providing superior alignment for your turret press. To ensure safe and effective use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- **Product Safety:** This product is designed to meet safety standards for nonfood items. Always use it as intended.
- **Enhanced Recalls:** Stay informed about recalls. If the product is deemed unsafe, you will be notified through standardized notices.
- **Online Shopping:** Ensure that you purchase this product from authorized retailers who comply with EU safety requirements.
- **Special Consumer Focus:** This product is not intended for children. Keep it out of reach to prevent accidents.
- **EU Contact Point:** For safety inquiries, ensure you have access to the relevant contact information.
- **Rapid Alerts:** Check the EU Safety Gate platform regularly for updates on any safety issues related to this product.

Specific Safety Precautions for Use

- Always inspect the die ring for any signs of damage or wear before use.
- Ensure that the turret press is turned off and unplugged during installation.
- Use the die ring only with compatible turret presses (e.g., T7 or Lyman AllAmerican).
- Avoid overtightening the die ring, as this may lead to misalignment or damage.
- Do not modify the die ring or use it for purposes other than intended.
- If you experience any issues during use, stop immediately and consult the manufacturer for guidance.

Instructions for Installation and Usage

1. Installation

- Ensure the turret press is turned off and unplugged.
- Remove any existing die ring or component from the turret press.
- Carefully position the UNIVERSAL 7/8" DIE RING onto the turret head.
- Tighten the die ring securely, ensuring that it is properly aligned.
- Check alignment by inserting the die and verifying that it seats correctly.

2. Usage

- Once installed, plug in and turn on the turret press.
- Follow the manufacturer's instructions for operating the turret press.
- Monitor the die ring during use for any signs of movement or misalignment.
- After use, turn off and unplug the turret press before making any adjustments.

Disposal Instructions

- Dispose of the die ring in accordance with local waste disposal regulations.
- Do not dispose of the die ring in regular household waste if it is damaged or broken.

- Contact local authorities for guidance on proper disposal methods for reloading accessories.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of the UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES, please refer to the manufacturer's official website or customer service for assistance.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities. Enjoy your reloading experience!
