

UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES - UNIVERSAL LOCKING DIE RING 7/8" FOR TURRET PRESS 7-PACK

UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES Since their release, the ZERO Die Rings have been a massive success, and remain the IDEAL die ring for ZERO press owners. One problem though – if you have a T7 or Lyman All-American turret press, Area 419's ZERO Rings are too big! Too girthy, it happens. So now Area-19 have taken the same design principles, made them JUST a bit smaller, and now you can enter the fold with other turret presses. Just like Area 419's ZERO Die Rings, these are torque-locking rings with the largest possible surfaces contacting the turret head, encouraging superior alignment of a die relative to a turret head, and removing a set screw or split ring to possibly induce misalignment.

Safety Instruction Guide for UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES

Introduction

Thank you for choosing the UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES. This guide provides important safety instructions to ensure safe usage and proper handling of the product. Please read this guide carefully before using the die ring.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always follow the manufacturer's instructions when using the die ring.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the die ring for any damage or wear before each use.
- If you notice any defects, do not use the product and contact the manufacturer for assistance.
- Report any unsafe product experiences or accidents to the relevant authorities.
- Stay informed about product recalls and safety updates via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use the die ring only with compatible turret presses, such as T7 or Lyman AllAmerican.
- Ensure the die ring is securely locked in place before operating the turret press.
- Avoid overtightening the die ring, as this may cause damage to the turret press or the die ring itself.
- Do not attempt to modify or alter the die ring in any way.
- Always wear appropriate personal protective equipment (PPE) when operating machinery.
- Be mindful of your surroundings and ensure a safe working environment when using the die ring.

Instructions for Installation and Usage

1. Installation:

- Ensure the turret press is turned off and unplugged before installation.
- Remove any existing die rings from the turret head.
- Align the UNIVERSAL 7/8" DIE RING with the turret head.
- Gently insert the die ring into place, ensuring it fits snugly.
- Tighten the die ring using the torquelocking mechanism, ensuring it is secure but not overtightened.

2. Usage:

- Once installed, plug in and turn on the turret press.
- Follow the specific instructions for your turret press model to begin operation.
- Monitor the die ring during use for any signs of misalignment or wear.
- After use, turn off and unplug the turret press before making any adjustments to the die ring.

Disposal Instructions

- Dispose of the die ring in accordance with local regulations regarding metal waste.
- Do not dispose of the product in regular household waste.
- If the die ring is damaged or no longer usable, contact local recycling facilities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES, please refer to the manufacturer's contact information provided with the product packaging. Ensure you have the product details ready for a more efficient response.

By following these guidelines, you can ensure a safe and effective experience with your UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES. Thank you for your attention to safety.
