

UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES - AREA 419

UNIVERSAL LOCKING DIE RING 7/8" FOR TURRET PRESS 7-PACK

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES Since their release, the ZERO Die Rings have been a massive success, and remain the IDEAL die ring for ZERO press owners. One problem though - if you have a T7 or Lyman All-American turret press, Area 419's ZERO Rings are too big! Too girthy, it happens. So now Area-19 have taken the same design principles, made them JUST a bit smaller, and now you can enter the fold with other turret presses. Just like Area 419's ZERO Die Rings, these are torque-locking rings with the largest possible surfaces contacting the turret head, encouraging superior alignment of a die relative to a turret head, and removing a set screw or split ring to possibly induce misalignment.

Safety Instruction Guide for UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES

Introduction

Thank you for choosing the UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES by AREA 419. This product is designed to enhance your reloading experience while ensuring safety and efficiency. Please read this guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

To ensure safe use of the UNIVERSAL 7/8" DIE RING, please follow these guidelines:

- Always read and understand the product instructions before use.
- Use the die ring only with compatible turret presses.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the die ring for wear or damage before each use.
- Do not modify the die ring or use it for any purpose other than intended.
- Report any accidents or unsafe conditions to the appropriate authorities.

Specific Safety Precautions for Use

When using the UNIVERSAL 7/8" DIE RING, observe the following precautions:

- Ensure that the turret press is securely mounted and stable before installation.
- Do not exceed the recommended torque settings when tightening the die ring.
- Avoid using the die ring with incompatible dies or equipment.
- Wear appropriate safety gear, such as eye protection, when operating the turret press.
- Be aware of your surroundings and ensure that no one is in close proximity while operating the press.

Instructions for Installation and Usage

Follow these steps for proper installation and usage of the UNIVERSAL 7/8" DIE RING:

1. Preparation:

- Ensure that the turret press is turned off and unplugged.
- Gather all necessary tools for installation.

2. Installation:

- Remove any existing die from the turret press.
- Align the UNIVERSAL 7/8" DIE RING with the turret head.
- Securely tighten the die ring using the appropriate tool, ensuring it is firmly in place without overtightening.

3. Usage:

- Insert the die into the die ring.
- Make sure the die is properly aligned and secured.
- Operate the turret press according to the manufacturer's instructions, monitoring for any unusual sounds or movements.

4. PostUsage:

- After use, remove the die from the die ring.
- Inspect the die ring for any signs of wear or damage.
- Store the die ring in a safe, dry place away from children.

Disposal Instructions

When the UNIVERSAL 7/8" DIE RING is no longer needed or is damaged beyond repair, dispose of it responsibly:

- Do not dispose of the die ring in regular household waste.
- Follow local regulations for disposing of metal products.
- Consider recycling the die ring if facilities are available in your area.

Contact Information for Further Support

For any questions or concerns regarding the UNIVERSAL 7/8" DIE RING, please refer to the contact point provided on the product packaging or the manufacturer's website. Ensure you have your product information ready when reaching out for assistance.

By following these guidelines, you can ensure a safe and effective reloading experience with the UNIVERSAL 7/8" DIE RING FOR TURRET PRESSES. Thank you for prioritizing safety in your reloading practices.
