ZERO M-SERIES SLEEVE & MANDREL KIT When Area 419 released the ZERO M-Series Die it changed the way the serious reloader thought about dies and how headspace should work. Along with Area 419's reamer cut sizing chambers, that fully size the case body, the integration of a full-length ground mandrel, and spring loaded decapping, the micrometer adjustability for headspace was unlike ANYTHING on the market. What Area 419 also knew would be a huge deal for reloaders though is the modularity of the dies. Available now are modular sizing sleeves for these dies. NOTE - THESE ARE REPLACEMENT SIZING INSERTS FOR M-SERIES DIES. DO NOT BUY THIS IF YOU DO NOT ALREADY OWN AN M-SERIES DIE, YOU WILL NOT BE ABLE TO USE THE ITEM. INCLUDED One Sizing Sleeve in the chosen caliber. These are exactly like the internal sleeves that come in the complete dies One mandrel, delivering approx .002" of neck tension in use, just like comes in the dies standard. One extra decapping pin It's a simple package that allows you to get the most of your M-Series dies.

ZERO MSERIES SLEEVE & MANDREL KIT

Safety Instruction Guide

Introduction

Thank you for choosing the ZERO MSERIES SLEEVE & MANDREL KIT by Area 419. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this document carefully before using the kit.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any signs of damage before use. Do not use if damaged.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Be aware of your surroundings and ensure a safe working environment when reloading.

Specific Safety Precautions for Use

- **Modularity Warning:** This kit contains replacement sizing inserts for MSeries dies. Do not purchase if you do not already own an MSeries die, as the inserts will not be usable without them.
- **Neck Tension:** The mandrel included in the kit provides approximately .002" of neck tension. Ensure that this specification is suitable for your reloading needs.
- **Decapping Pin:** Handle the extra decapping pin with care to avoid injury. Ensure it is properly installed before use.
- **Sizing Sleeve:** Ensure that the sizing sleeve is correctly fitted to the die to prevent malfunction or accidents.

Instructions for Installation and Usage

1. Installation of Sizing Sleeve:

- Remove the existing sizing sleeve from the MSeries die.
- Insert the new sizing sleeve into the die, ensuring a snug fit.
- Secure the sleeve as per the manufacturer's instructions.

2. Installation of Mandrel:

- Remove the old mandrel from the die.
- Insert the new mandrel, ensuring it is properly seated.
- Check for proper alignment before use.

3. Decapping Pin Installation:

- Remove the old decapping pin if necessary.
- Insert the new decapping pin into the designated slot in the die.
- Ensure it is securely attached.

4. Using the Kit:

- Follow the specific reloading procedures for your chosen caliber (6mm Dasher).
- Adjust the micrometer for headspace according to your reloading requirements.
- Always conduct a test run to ensure proper functioning before proceeding with full reloading.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for local recycling or hazardous waste disposal options.

Contact Information for Further Support

For any safety inquiries or further assistance, please contact the manufacturer or your local distributor.

By following these safety instructions, you can ensure a safe and effective reloading experience with your ZERO MSERIES SLEEVE & MANDREL KIT. Thank you for prioritizing safety in your reloading practices.
