

ZERO M-SERIES SLEEVE & MANDREL KIT - ZERO M-SERIES 6MM BR SLEEVE & MANDREL KIT

ZERO M-SERIES SLEEVE & MANDREL KIT When Area 419 released the ZERO M-Series Die it changed the way the serious reloader thought about dies and how headspace should work. Along with Area 419's reamer cut sizing chambers, that fully size the case body, the integration of a full-length ground mandrel, and spring loaded decapping, the micrometer adjustability for headspace was unlike ANYTHING on the market. What Area 419 also knew would be a huge deal for reloaders though is the modularity of the dies. Available now are modular sizing sleeves for these dies. NOTE - THESE ARE REPLACEMENT SIZING INSERTS FOR M-SERIES DIES. DO NOT BUY THIS IF YOU DO NOT ALREADY OWN AN M-SERIES DIE, YOU WILL NOT BE ABLE TO USE THE ITEM. INCLUDED One Sizing Sleeve in the chosen caliber. These are exactly like the internal sleeves that come in the complete dies One mandrel, delivering approx .002" of neck tension in use, just like comes in the dies standard. One extra decapping pin It's a simple package that allows you to get the most of your M-Series dies.

ZERO MSERIES SLEEVE & MANDREL KIT

Safety Instructions

Introduction

Thank you for choosing the ZERO MSERIES SLEEVE & MANDREL KIT. This product is designed for serious reloaders looking to enhance their reloading process. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that you are familiar with reloading practices and procedures before using this product.
- Always use the product in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for wear and damage. Do not use if any components are damaged.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Only use the ZERO MSERIES SLEEVE & MANDREL KIT with compatible MSeries dies. Using it with incompatible equipment may result in malfunction or injury.
- Wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Ensure that your workspace is clean and free from distractions while using the product.
- Do not exceed the recommended specifications for your reloading processes.
- Be aware of the potential hazards associated with reloading, including the handling of primers and powders.

Instructions for Installation and Usage

1. Preparation

- Ensure that your reloading equipment is clean and set up in a wellventilated area.
- Gather all necessary tools and materials before beginning.

2. Installation of Sizing Sleeve

- Remove the existing sizing sleeve from your MSeries die.
- Carefully insert the new sizing sleeve into the die, ensuring it is seated properly.
- Secure the sleeve according to the manufacturer's instructions.

3. Installation of Mandrel

- Insert the mandrel into the sizing sleeve.
- Ensure that the mandrel is properly aligned and secured.

4. Decapping Pin

- Install the decapping pin in accordance with the manufacturer's guidelines.
- Check that the pin is correctly positioned to avoid damage during use.

5. Adjusting Headspace

- Use the micrometer adjustability feature to set the desired headspace.
- Make small adjustments and test to ensure proper fit.

6. Reloading Process

- Follow your standard reloading procedures, ensuring to monitor for any irregularities.
- After use, clean all components to maintain functionality and safety.

Disposal Instructions

- Dispose of packaging materials in accordance with local regulations.
- If any components of the product are damaged or no longer usable, dispose of them responsibly.
- Do not dispose of any materials in a manner that poses a risk to the environment or public safety.
