

ZERO M-SERIES SLEEVE & MANDREL KIT - ZERO M-SERIES 6MM CREEMOOR SLEEVE & MANDREL KIT

ZERO M-SERIES SLEEVE & MANDREL KIT When Area 419 released the ZERO M-Series Die it changed the way the serious reloader thought about dies and how headspace should work. Along with Area 419's reamer cut sizing chambers, that fully size the case body, the integration of a full-length ground mandrel, and spring loaded decapping, the micrometer adjustability for headspace was unlike ANYTHING on the market. What Area 419 also knew would be a huge deal for reloaders though is the modularity of the dies. Available now are modular sizing sleeves for these dies. NOTE - THESE ARE REPLACEMENT SIZING INSERTS FOR M-SERIES DIES. DO NOT BUY THIS IF YOU DO NOT ALREADY OWN AN M-SERIES DIE, YOU WILL NOT BE ABLE TO USE THE ITEM. INCLUDED One Sizing Sleeve in the chosen caliber. These are exactly like the internal sleeves that come in the complete dies One mandrel, delivering approx .002" of neck tension in use, just like comes in the dies standard. One extra decapping pin It's a simple package that allows you to get the most of your M-Series dies.

ZERO MSERIES SLEEVE & MANDREL KIT

Safety Instructions

Introduction

Thank you for choosing the ZERO MSERIES SLEEVE & MANDREL KIT. This product is designed to enhance your reloading experience. To ensure your safety and the optimal performance of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure safe use of all nonfood products, including this reloading kit.
- Be aware of risks not addressed by other EU laws.
- If purchasing online, ensure you are buying from a reputable source that meets safety requirements.
- Extra safeguards are in place for vulnerable groups, including children.
- Always report unsafe products or accidents to local authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, such as safety glasses and gloves, when using reloading equipment.
- Keep the workspace clean and organized to prevent accidents.
- Ensure the product is used only by individuals who are familiar with reloading processes.
- Store all components out of reach of children and pets.
- Do not attempt to modify or alter the components of the kit.
- Follow the manufacturer's instructions carefully to avoid misuse.

Instructions for Installation and Usage

1. Preparation

- Ensure that you have a clean, dry workspace.
- Gather all necessary tools and materials before starting.

2. Installation of Sizing Sleeve

- Remove the existing sleeve from your MSeries die if applicable.
- Select the appropriate sizing sleeve for your caliber (6mm Creedmoor).
- Insert the new sizing sleeve into the die until it is securely in place.

3. Installation of Mandrel

- Take the mandrel from the kit.
- Insert the mandrel into the sizing sleeve, ensuring it is properly seated.
- Ensure that the mandrel is aligned correctly to avoid any damage during use.

4. Decapping Pin Installation

- Locate the extra decapping pin included in the kit.
- Replace the existing decapping pin if necessary, ensuring it is securely fastened.

5. Usage

- Follow standard reloading procedures for your specific firearm.
- Adjust the micrometer for headspace as needed, taking care to follow the manufacturer's guidelines.
- Monitor the process closely to ensure no hazards arise during reloading.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- For any unused or damaged components, consult local waste management authorities for proper disposal methods.
- Avoid disposing of the product in regular household waste if it contains hazardous materials.
