

ZERO DIE MANDREL KITS - AREA 419 ZERO 30 CALIBER MANDREL KIT

[Reloading](#) > [Case Preparation](#) > [Neck Turning](#) > [Turning & Expander Mandrels](#)

ZERO SIZING DIE MANDREL KITS A core part of the ZERO Sizing Die design is a precision ground, full-length mandrel. Designed to provide the greatest consistency in neck tension, these were also meant to be interchangeable, allowing the reloader to select the amount of neck tension that works best for them. Area 419's mandrels are ground 17-4PH Stainless Steel, and black nitrided for smooth and long-lasting operation. These kits include FOUR mandrels, so when combined with the mandrel that came with your ZERO M-Series or S-Series sizing die, give you .0005 neck-tension increments from .0005 to .0025. Kits also include one spare decap pin, just in case.

ZERO SIZING DIE MANDREL KITS Safety Instruction Guide

Introduction

Thank you for choosing the ZERO Sizing Die Mandrel Kits by Area 419. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your mandrel kit. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this guide.
- Keep the product out of reach of children and vulnerable individuals.
- Always inspect the mandrels before use for any signs of damage or wear.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the product.
- Follow all local laws and regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- Do not exceed the recommended neck tension increments of .0005 to .0025 when using the mandrels.
- Ensure that the mandrels are properly secured within the sizing die before operation.
- Avoid using the mandrels with incompatible calibers or products to prevent accidents.
- If you notice any unusual sounds or resistance during operation, stop immediately and inspect the equipment.
- Always store the mandrels in a safe and dry location when not in use to prevent corrosion or damage.

Instructions for Installation and Usage

1. Installation of Mandrels:

- Select the desired mandrel from the kit.
- Carefully insert the mandrel into the sizing die, ensuring it is seated properly.
- Tighten the retaining screw to secure the mandrel in place.

2. Usage:

- Prepare your brass cases as per your reloading process.
- Insert the case into the sizing die with the installed mandrel.
- Operate your reloading press according to the manufacturer's instructions.
- Monitor the neck tension incrementally, adjusting as needed based on your desired specifications.

3. Maintenance:

- After use, clean the mandrels with a soft cloth to remove any debris.
- Inspect the mandrels regularly for signs of wear or damage.
- Replace any damaged mandrels immediately to ensure safe operation.

Disposal Instructions

- Dispose of the product in accordance with local regulations for metal and plastic waste.
- Do not dispose of the product in regular household waste.
- Consider recycling options for stainless steel and other materials when applicable.

Contact Information for Further Support

For any safety inquiries or concerns regarding the ZERO Sizing Die Mandrel Kits, please refer to the manufacturer's contact details provided with your product packaging or on their official website.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your ZERO Sizing Die Mandrel Kits. Always prioritize safety and compliance with local regulations when using the product. Thank you for your attention to these important safety practices.
