

ZERO DIE MANDREL KITS - ZERO 6.5MM CALIBER MANDREL KIT

ZERO SIZING DIE MANDREL KITS A core part of the ZERO Sizing Die design is a precision ground, full-length mandrel. Designed to provide the greatest consistency in neck tension, these were also meant to be interchangeable, allowing the reloader to select the amount of neck tension that works best for them. Area 419's mandrels are ground 17-4PH Stainless Steel, and black nitrided for smooth and long-lasting operation. These kits include FOUR mandrels, so when combined with the mandrel that came with your ZERO M-Series or S-Series sizing die, give you .0005 neck-tension increments from .0005 to .0025. Kits also include one spare decap pin, just in case.

ZERO DIE MANDREL KITS Safety Instruction Guide

Introduction

Thank you for choosing the ZERO Die Mandrel Kits. These kits are designed to enhance your reloading experience by providing precision and consistency. It is essential to follow safety instructions to ensure safe usage and to maximize the benefits of your product. This guide outlines important safety guidelines, precautions, and instructions for the correct installation and usage of the ZERO Die Mandrel Kits.

General Safety Guidelines

- Ensure that all tools and equipment used in conjunction with the ZERO Die Mandrel Kits are in good working condition.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the working area clean and free from clutter to avoid accidents.
- Store the mandrel kits in a secure location, out of reach of children and pets.
- Regularly inspect the mandrels for signs of wear or damage before each use.
- Dispose of any damaged or worn components safely and responsibly.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Only use the ZERO Die Mandrel Kits with compatible ZERO MSeries or SSeries sizing dies.
- Ensure that the mandrels are properly seated in the die before use to prevent accidents.
- Do not exceed the recommended neck tension settings as indicated in the product specifications.
- Avoid using excessive force during the reloading process, as this may lead to equipment failure or injury.
- Do not modify the mandrels or any components of the kit, as this may compromise safety and performance.
- Follow all manufacturer guidelines regarding the use of the mandrel kits.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the ZERO Die Mandrel Kit, ZERO MSeries or SSeries sizing die, and reloading components.
- Ensure your workspace is clean and organized.

2. Installation:

- Remove the mandrel from the kit and inspect it for any damage.
- Insert the mandrel into the ZERO sizing die, ensuring it is fully seated.
- Tighten the die securely to prevent movement during use.

3. Usage:

- Select the appropriate mandrel for your desired neck tension from the kit.
- Follow the reloading process as per your standard operating procedures.
- Monitor the operation closely to ensure everything functions smoothly.

4. PostUse:

- After use, clean the mandrels and the die to remove any debris or residue.

- Store the mandrel kits in a safe location, ensuring they are not accessible to children or pets.

Disposal Instructions

- Dispose of any damaged or worn components of the ZERO Die Mandrel Kits in accordance with local regulations.
- Do not dispose of the mandrels or any other components in regular household waste.
- Contact your local waste management facility for proper disposal methods.

Contact Information for Further Support
