

# TAKE DOWN LEVER FOR SPRINGFIELD® HELLCAT/HELLCAT PRO - TAKE DOWN LEVER FOR SPRINGFIELD HELLCAT GRAY

Designed with precision and functionality at its core, the Springfield Armory Hellcat Takedown Lever manufactured by Tyrant CNC is an engineering marvel crafted for enthusiasts who demand the best in their firearms. Their takedown lever is purpose-built to enhance the user's experience with the Springfield Hellcat and Hellcat Pro handguns. So, whether you're an operator in the field or a firearm enthusiast, this is the upgrade you've been waiting for.

**Material & Manufacture:** At Tyrant CNC, Tyrant Designs understand the importance of durability and performance. That's why this takedown lever is molded from 17-4 stainless steel, known for its strength and corrosion resistance. Once formed, each piece undergoes a bead-blasting process, giving it a uniform and aesthetically pleasing matte finish. But they didn't stop there. The lever then receives a PVD (Physical Vapor Deposition) finish, further enhancing its durability and resistance to wear, corrosion, and oxidation. The result? A takedown lever that's not just tough but is built to last a lifetime.

**Design & Functionality:** One of the standout features of this lever is its 2x raised surface, complemented by meticulously crafted serrations that pay homage to the OEM. These design elements don't just add to its visual appeal but play a crucial role in functionality. The increased surface area coupled with the texture provides a superior grip, whether its for a thumb rest or ensuring that the operator can swiftly and safely engage or disengage the lever, even under challenging conditions. This is a significant improvement over the factory model, which may sometimes feel slippery or inadequate. Additionally, their engineers have introduced subtle yet impactful radius changes to the design. These modifications ensure smoother operation, making the takedown process seamless and efficient. If you've ever felt the factory Hellcat & Hellcat Pro takedown lever was a bit stiff or abrasive, you'll immediately notice the difference with the Tyrant CNC's version.

**Holster Compatibility:** For operators and enthusiasts, the compatibility of aftermarket parts with existing equipment is often a concern. Tyrant Design have taken this into consideration. Despite its dimensional growth, enhanced features and superior design, this takedown lever remains fully compatible with standard holsters. This means you won't have to invest in new equipment or compromise on your carry options.

**Conclusion:** The Springfield Armory Hellcat and Hellcat Pro Takedown Lever by Tyrant CNC isn't just another aftermarket part; it's a testament to what's possible when engineering meets operational expertise. If you own a Springfield Hellcat or Hellcat Pro and are looking to elevate your firearm's performance, look no further. With its unparalleled durability, enhanced functionality, and seamless compatibility, it's the perfect upgrade for the discerning operator.

**FEATURES**

**Platform:** Springfield Designed For Models: Hellcat, Hellcat Pro

**Fitment Notes:** Works on all Springfield Armory Hellcat series firearms ( regular, Pro, RDP, etc etc) Works with most OWB and IWB Holsters

Polished radius groove for smoother action

# Safety Instruction Guide for TAKE DOWN LEVER FOR SPRINGFIELD® HELLCAT/HELLCAT PRO

## Introduction

Thank you for choosing the TAKE DOWN LEVER FOR SPRINGFIELD® HELLCAT/HELLCAT PRO manufactured by Tyrant CNC. This guide provides essential safety instructions to ensure the safe use and installation of your new takedown lever. Please read this guide carefully before use.

## General Safety Guidelines

- Ensure that the takedown lever is compatible with your specific Springfield Hellcat or Hellcat Pro model.
- Always handle your firearm with care and follow all safety protocols associated with firearms.
- Keep the takedown lever and all firearm components out of reach of children and unauthorized users.
- Regularly inspect the takedown lever for signs of wear or damage before each use.
- If you experience any issues during installation or use, seek assistance from a qualified professional.

## Specific Safety Precautions for Use

- Always ensure that your firearm is unloaded before installing or adjusting the takedown lever.
- Do not attempt to modify the takedown lever. Alterations may compromise safety and performance.
- Use the takedown lever only as intended. Improper use may lead to malfunctions or accidents.
- Be aware of your surroundings and ensure that the area is safe before engaging or disengaging the lever.
- If you notice any unusual resistance or difficulty during operation, stop using the lever immediately and consult a professional.

## Instructions for Installation and Usage

### 1. Installation Steps:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the factory takedown lever by following the manufacturer's instructions.
- Align the new Tyrant CNC takedown lever with the designated slot in the firearm.
- Gently press the lever into place until it is securely fitted.
- Test the lever to ensure smooth operation before using the firearm.

### 2. Usage Instructions:

- To engage the takedown lever, apply firm pressure with your thumb or finger as needed.
- When disengaging, ensure that you maintain a secure grip to prevent slipping.
- After use, always perform a safety check to verify that the lever functions correctly.

## Disposal Instructions

- Dispose of the takedown lever in accordance with local regulations.
- Do not dispose of the takedown lever in regular household waste.
- Consider recycling options to minimize environmental impact.

## Contact Information for Further Support

For any inquiries or concerns regarding the safety and performance of your TAKEDOWN LEVER FOR SPRINGFIELD® HELLCAT/HELLCAT PRO, please refer to the manufacturer's contact resources.

By following these safety instructions, you can ensure a safe and enjoyable experience with your new takedown lever. Always prioritize safety and responsible firearm handling. Thank you for your attention to these important guidelines.
