

AR-15 ENHANCED BUFFERS CARBINE BLACK - AR-15 ENHANCED BUFFER STEEL BODY CARBINE H2 BLACK

The Primary Weapons Systems MOD 2 4140 Steel Body Buffers have a unique fluted design with minimum contact points, allowing debris to clear easily, while the FNC LIFE HD treatment chemically bonds in lubrication for smoother cycling. These Enhanced buffers are available in H2, H3, and H4 weights. H2 weighs 4.4oz H3 weighs 5.1oz H4 weighs 6.8oz The H4 buffer is the heaviest buffer offered by PWS, and is intended for suppressed use.

AR15 Enhanced Buffers Carbine Safety Instructions

Introduction

Thank you for choosing the AR15 Enhanced Buffers Carbine. This product is designed to enhance the performance of your firearm while ensuring safe and reliable operation. Please read this safety instruction guide carefully to ensure proper use and maintenance of the product.

General Safety Guidelines

- Ensure that you are familiar with the operation of your firearm before using the AR15 Enhanced Buffers.
- Always treat your firearm as if it is loaded, even when it is not.
- Store the AR15 Enhanced Buffers in a secure location away from children and unauthorized users.
- Regularly inspect the buffers for wear and damage before each use.
- Follow all local laws and regulations regarding the use and storage of firearms and firearm accessories.

Specific Safety Precautions for Use

- Use only the recommended weights (H2, H3, H4) of the Enhanced Buffers with compatible AR15 models.
- The H4 buffer is designed for suppressed use; ensure that your firearm is compatible before installation.
- Avoid using the product in adverse conditions such as extreme temperatures or wet environments without proper precautions.
- Do not exceed the manufacturer's specifications for ammunition or modifications to your firearm while using the buffers.
- If you experience any malfunctions or unusual behavior during use, cease operation immediately and inspect the product.

Instructions for Installation and Usage

1. Installation of the Enhanced Buffers:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing buffer from the buffer tube by following the manufacturer's instructions for your specific AR15 model.
- Select the appropriate Enhanced Buffer (H2, H3, or H4) based on your needs.
- Insert the Enhanced Buffer into the buffer tube, ensuring it is seated properly.
- Reassemble the firearm according to the manufacturer's instructions.

2. Usage:

- After installation, perform a function check to ensure the buffer operates smoothly with your firearm.
- When firing, monitor the performance of the buffer and the overall operation of the firearm.
- Regularly clean and lubricate the buffer as per the manufacturer's recommendations to ensure optimal performance.

Disposal Instructions

- Dispose of any damaged or worn buffers in accordance with local regulations.
- Do not dispose of the product in regular household waste; instead, follow the guidelines for hazardous materials if applicable.

Contact Information for Further Support

For any safety inquiries or concerns regarding the AR15 Enhanced Buffers Carbine, please contact the manufacturer directly. Ensure you have your product details and any relevant information ready for the best assistance.

By following these safety instructions, you can ensure that your AR15 Enhanced Buffers Carbine operates safely and effectively. Always prioritize safety and responsibility when handling firearms and their accessories.
