

SPD HUSH SERIES 45-70 GOVERNMENT LEVER ACTION RIFLE - SPD HUSH 45-70 GOVERNMENT 16.5" BBL 4 ROUND GRAY

HENRY SPD HUSH SERIES 45-70 GOVERNMENT LEVER ACTION RIFLE The Henry SPD HUSH Series is a bold evolution in lever-action rifle design, purpose-built to be run suppressed. Developed by the Henry Special Products Division—this new R&D initiative focused on forward-thinking innovation—this inaugural release reimagines what a lever gun can be in modern hunting and shooting applications. The HUSH Series strikes the perfect balance of traditional feel and modern performance. **Designed To Be Silenced** Lever actions already offer excellent balance and speed, with the added suppressor-friendly benefit of a closed action during firing. Henry's HUSH Series takes this a step further. Every component forward of the receiver is optimized to minimize weight, keeping the rifle's natural center of gravity intact—even when a suppressor is mounted. The result is a no-compromise suppressor host that retains the instinctive handling and quick follow-up shot capability that lever guns are known for. **Match-Grade Carbon Fiber Barrel** At the heart of the HUSH Series is a match-grade 416R stainless steel barrel, wrapped in a tension-loaded roll of carbon fiber, supplied by way of a collaborative partnership with BSF Barrels of Delavan, Wisconsin. This design creates a 95% air gap between the carbon and steel, reducing weight, promoting faster cooling, and ensuring temperature stability. As the steel heats and expands, the carbon sleeve expands with it—preventing delamination and maintaining accuracy during long shooting sessions. **Adaptable. Balanced. Purposeful.** The forearm is a skeletonized aluminum design, created in collaboration with TAPCO, The American Parts Company. Its slim profile, light weight, and M-LOK® compatibility allow for quick attachment of hunting or shooting accessories without adding bulk. A forged carbon fiber Picatinny rail atop the receiver gives you the freedom to mount your preferred optic, while a threaded muzzle makes it ready for your suppressor of choice. See specifications listed below for caliber-specific thread patterns. The matte dark gray American hardwood laminate buttstock conceals more than meets the eye. It's hollowed out just enough to remove some weight while retaining exceptional durability, and the checkering and rubber recoil pad provide increased purchase and comfort. Opting for the laminate buttstock ensures the familiar wood-to-skin touch that's missing from full aluminum builds. Additional visual and functional enhancements—like a matte-finished outer magazine tube, lever, and trigger—round out the series with thoughtful finishing touches. After all, we have to make it look good too. **A Smarter Way to Hunt** By shooting suppressed, you reduce felt recoil, protect your hearing, and lessen disruption to surrounding game. It's a smarter, safer, and more ethical way to hunt—and now there's a rifle built specifically for it. **Made in America, Or Not Made At All** The SPD HUSH Series is the debut release from Henry's Special Products Division and represents our commitment to innovation without compromise. Each one is built and fine-tuned in Rice Lake, Wisconsin, backed by a Lifetime Warranty, and comes with our 100% Satisfaction Guarantee. **FEATURES:** Match-grade 416R stainless steel barrel encased in a tension-wrapped carbon fiber sleeve, manufactured in partnership with BSF Barrels of Delavan, Wisconsin Lightweight, skeletonized aluminum forearm featuring M-LOK® accessory slots, designed in collaboration with TAPCO, The American Parts Company A checkered, lightweight, matte dark gray American hardwood laminate stock with a rubber recoil pad. SPD HUSH SERIES 4570 GOVERNMENT LEVER ACTION RIFLE Safety Instruction Guide

Introduction

Thank you for choosing the SPD HUSH Series 4570 Government Lever Action Rifle. This guide provides essential safety instructions to ensure the safe and effective use of your firearm. Please read this guide thoroughly and keep it for future reference.

General Safety Guidelines

- Always treat every firearm as if it is loaded.
- Keep the muzzle pointed in a safe direction at all times.
- Be sure of your target and what is beyond it before firing.
- Store firearms and ammunition separately and securely, out of reach of children.
- Wear appropriate eye and ear protection when using this firearm.
- Do not consume alcohol or drugs before or while shooting.
- Ensure that the firearm is unloaded when not in use or when being cleaned.
- Regularly inspect the firearm for any signs of wear or damage.

Specific Safety Precautions for Use

- Before using the rifle, familiarize yourself with its operation and features.
- Always use the correct ammunition specified for your firearm (4570 Government).
- Ensure that the suppressor is properly mounted and compatible with the threaded muzzle.
- Avoid shooting in areas where it is prohibited or unsafe to do so.
- Be aware of your surroundings, including other people and animals, when shooting.
- Do not modify or alter the firearm in any way, as this may compromise safety.
- If you experience any malfunctions, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Installation of Accessories:

- Ensure the rifle is unloaded before attaching any accessories.
- Use the MLOK® slots on the forearm for quick attachment of accessories.
- Mount your optic on the receivermounted Picatinny rail, ensuring it is securely fastened.

2. Loading the Firearm:

- Open the lever action to expose the chamber.
- Insert the 4round magazine into the magazine well until it clicks into place.
- Load one round into the chamber by closing the lever.

3. Firing the Rifle:

- Ensure the safety is in the "off" position before firing.
- Aim at your target, ensuring the area is clear.
- Squeeze the trigger gently to fire the rifle.
- After firing, cycle the lever to eject the spent cartridge and load the next round.

4. Cleaning and Maintenance:

- Regularly clean the barrel and action to maintain performance.
- Use only manufacturerrecommended cleaning supplies.
- Inspect the firearm for any loose parts or signs of wear.

Disposal Instructions

- Dispose of any unused or expired ammunition according to local regulations.
- Do not dispose of firearms in regular trash. Contact your local authorities for proper disposal methods.
- Ensure that all components of the firearm are securely stored or disposed of to prevent unauthorized access.

Contact Information for Further Support

For additional safety inquiries or product support, please reach out to your local authorized dealer or the manufacturer directly.

By following these safety guidelines and instructions, you can ensure a safe and enjoyable experience with your SPD HUSH Series 4570 Government Lever Action Rifle. Thank you for your attention to safety.
