

CELLVAULT BATTERY STORAGE - THYRM LLC CELLVAULT BATTERY STORAGE FOR AAA AND CR123 CLEAR

[Emergency & Survival Gear](#) > [Emergency Electronics](#) > [Batteries](#)

CELLVAULT BATTERY STORAGE FOR AAA AND CR123 The CellVault Battery Storage is Thyrm's original CellVault, a space-efficient way to keep your batteries and critical gear safe, dry and accessible. It can store three CR123, four AAA, or two AA batteries, as well as small survival supplies. The CellVault Battery Storage protects batteries and other critical gear while keeping it accessible and organized. Its integrated webbing clip allows you to access the CellVault's contents without removing it, or you can quickly detach it for more control. This is the original CellVault size. FEATURES: Mounts to PALS, MOLLE, webbing, and straps Lanyard loops at both ends, for more attachment options Slim vertical profile less than 1 MOLLE webbing column, freeing up space for other gear including first aid kits, ammo, and tools Slightly decreasing diameter that can keeps CR123 batteries at the bottom of the CellVault secure even when the CellVault is inverted. Just squeeze the sides of the tube to release CR-123s in the middle or bottom of the CellVault. Waterproof, dustproof, durable exterior keeping your essentials safe and accessible Designed and manufactured in the USA Colors: black, Olive Drab, Rescue Orange, Flat Dark Earth, Urban Grey, or clear with black hinge. Viewable contents through clear model A CellVault can store: Three CR123 batteries Four AAA batteries Two AA batteries (leaving a little extra room) Small survival gear such as matches, hooks and line, a light stick, iodine tablets, a compass, and lip balm First aid gear including hemostatic clotting agents, tweezers, and bandages Consumables* such as medication, instant coffee packets, electrolyte powder, candy Emergency money and a Flash Drive Cigar/Cigarettes/chewing tobacco *If you plan to store consumables (medication, snacks) in the CellVault, wash it thoroughly and consider using a food-safe plastic bag. Clean it with a test tube or bottle brush. The CellVault is made with food-safe thermoformed plastic. This model of CellVault is not designed to be waterproof under prolonged submersion. Subsequently, it is not designed for diving. Users should check the lip and O-ring of the CellVault for debris or wear that could prevent it from being waterproof over time.

CellVault Battery Storage Safety Instruction Guide

Introduction

Thank you for choosing the CellVault Battery Storage by Thyrm LLC. This guide provides essential safety instructions to ensure the safe use and handling of your CellVault product. Please read this guide carefully before using the product to ensure your safety and the safety of others.

General Safety Guidelines

- Always store the CellVault in a dry and safe location away from extreme temperatures and direct sunlight.
- Regularly inspect the CellVault for any signs of wear or damage, particularly the lip and Oring, to ensure it remains waterproof.
- Keep the CellVault out of reach of children to prevent accidental ingestion of small items or batteries.
- Do not use the CellVault for any purpose other than its intended use as a battery storage and gear organizer.
- If you notice any unusual odor, discoloration, or leakage from stored items, discontinue use immediately and dispose of the contents safely.

Specific Safety Precautions for Use

- Ensure that batteries are stored correctly, with the positive and negative ends facing the appropriate direction to prevent short circuits.
- Avoid mixing different battery types or brands within the CellVault to prevent chemical reactions.
- When storing consumables such as medication or snacks, use foodsafe plastic bags and clean the CellVault thoroughly before and after use.
- Do not expose the CellVault to water for prolonged periods, as it is not designed for diving or submersion.
- If the CellVault is damaged or compromised, do not attempt to repair it. Replace it to ensure continued safety.

Instructions for Installation and Usage

1. Mounting the CellVault:

- Use the integrated webbing clip to attach the CellVault to PALS, MOLLE, webbing, or straps as needed.
- Ensure the clip is securely fastened to prevent accidental detachment during use.

2. Storing Batteries:

- Open the CellVault by unclipping the lid.
- Insert up to three CR123 batteries, four AAA batteries, or two AA batteries, ensuring they are positioned correctly.
- For small survival gear, place items such as matches, a light stick, or a compass in the designated space without overcrowding.

3. Accessing Contents:

- To access the contents, squeeze the sides of the CellVault gently to release batteries from the middle or bottom section.
- For quick access, detach the CellVault from its mounting system if necessary.

4. Cleaning and Maintenance:

- Clean the CellVault using a test tube or bottle brush with mild soap and water.
- Ensure it is thoroughly dried before storing any items again.

Disposal Instructions

- Dispose of any batteries in accordance with local regulations for battery disposal to prevent environmental harm.
- If the CellVault is no longer usable, dispose of it in accordance with local waste management guidelines for plastic products.
- Do not throw the CellVault or its contents into regular household waste.

Contact Information for Further Support

For any inquiries or further assistance regarding the CellVault Battery Storage, please refer to the manufacturer's contact information provided on the packaging or the official website.

By following these safety instructions, you can ensure a safe and effective use of your CellVault Battery Storage. Thank you for your attention to these guidelines, and enjoy the benefits of your new product!
