

GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 X-MACRO® - GRIP MODULE FOR SIG SAUER P365 X-MACRO BLACK

TYRANT CNC® GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 X-MACRO®

The Evolution of the P365 Platform — Perfected by Tyrant CNC Sig Sauer's P365 series changed the game when it launched. It wasn't just another micro-compact—it was the first pistol to offer serious capacity in a truly concealable footprint. But with each iteration, Sig continued to refine the concept, pushing boundaries in modularity, shootability, and performance. Enter the P365 X Macro—the most capable version to date. And now, Tyrant CNC have taken that platform even further with the Tyrant CNC P365 X Macro Grip Module. Built from Tyrant CNC's ultra-rugged and premium carbon and glass-filled polymer composite, this full-length grip module improves on the factory frame with better ergonomics, enlarged dovetail, high grip undercut, and customized variable depth texturing—giving you the control and compatibility that serious shooters demand. What Makes the X Macro the Best P365 Yet? Unlike the original P365 or even the P365 XL, the X Macro offers something the others don't: a full 17-round capacity in a flush-fit magazine—without bloating the gun's profile. That's full size Glock G19-level firepower in a slimmer, more concealable package. Sig achieved this with a redesigned frame and magazine system that increased capacity without drastically increasing the grip size. This not only improves shootability and control, it also eliminates the need for awkward magazine extensions or grip sleeves that plagued earlier variants. And with the X Macro's 3.7" dust cover, you get full accessory compatibility—ideal for tactical applications, home defense, or any scenario where a mounted light is essential. FEATURES Full-Length 1913 Picatinny Rail: Unlike the short proprietary rails on earlier P365 models, this grip features a full 3.7" dust cover with a true mil-spec Picatinny rail. That means no adapters, no limitations—mount full-size lights and lasers without compromise. Enlarged Dovetail: Tyrant CNC took a feature seen mostly and only on full size firearms and added it to their grip module. Their dovetail gives the operator better recoil control which leads to more accurate follow up shots. Carbon + Glass-Filled Polymer Construction: Stronger than traditional polymer, lighter than aluminum, all while feeling premium. This proprietary blend offers serious rigidity, heat resistance, and impact durability—ideal for hard-use environments. Improved Ergonomics: Featuring reduced trigger reach, high grip undercut and an aggressive grip texture, this grip enhances comfort and control under rapid fire or stress shooting conditions. Flared Magwell: Speed up your reloads with a subtly integrated magwell that guides your mags into place with less fumbling and more consistency. True full-size X Macro grip module – not a hybrid or shortened variant Accepts Sig 17-round X Macro magazines (flush fit) Full-length 3.7" dust cover with 1913 Picatinny rail Made from carbon and glass-filled polymer composite Flared magwell for faster reloads Reduced trigger reach for better control Drop-in compatibility with Sig FCUs and P365 X Macro slides Supports lights like TLR-1 HL, SureFire X300, Inforce Wild2 Not California compliant – for use with standard capacity mags only SPECS Material: Carbon + glass-filled polymer Length: Full X Macro spec (3.7" dust cover) Magazine Compatibility: 17-round X Macro (standard) Weight: Lightweight, reinforced polymer Installation: Drop-in; no modifications required

Attributes

- Name: GRIP MODULE FOR SIG SAUER P365 X-MACRO BLACK
- Manufacturer: TYRANT CNC
- Product no.: 430114109
- Mfr. No.: TD-P365GRM-MACRO-BLK
- Color: Black
- Make: Sig Sauer
- Material: Polymer
- Model: P365 XMARCO
- Style: Textured
- Surface: Textured
- Delivery weight: 0.023kg
- Shipping height: 203mm
- Shipping width: 13mm
- Shipping length: 102mm
- UPC: 764046030918

Item details

Made in USA

US export classification: 0A501.y.1

Safety Instruction Guide for GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 XMACRO

Introduction

Thank you for choosing the Tyrant CNC Grip Module with 1913 Rail for the Sig Sauer P365 XMacro. This guide provides essential safety information and instructions to ensure the safe use and maintenance of your product. Please read this guide carefully before installation and use.

General Safety Guidelines

- Ensure that the grip module is compatible with your firearm model before installation.
- Always handle firearms with care and follow all safety protocols associated with firearm use.
- Keep the grip module and all accessories out of reach of children and unauthorized users.
- Regularly inspect the grip module for any signs of wear or damage before use.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Improper installation can lead to malfunction or injury.
 - Using incompatible magazines may cause operational failures.
- **Avoiding Hazards:**
 - Always ensure the firearm is unloaded before installing or modifying any components.
 - Do not use the grip module with standard capacity magazines in regions where it is prohibited.
 - Avoid exposing the grip module to extreme temperatures or harsh chemicals that could degrade the material.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing grip module by following the manufacturer's instructions for your specific Sig Sauer P365 model.
- Align the Tyrant CNC Grip Module with the firearm's frame, ensuring that all connectors fit snugly.
- Firmly press the grip module into place until it clicks securely.
- Reinstall any necessary components according to the manufacturer's guidelines.

2. Usage:

- Familiarize yourself with the grip module's features, including the flared magwell and fulllength Picatinny rail.
- Ensure that your magazines are compatible (17round X Macro magazines) and properly seated in the grip module.
- Practice safe handling techniques, including keeping your finger off the trigger until ready to fire.

Disposal Instructions

- Dispose of the grip module according to local regulations concerning plastic and polymer materials.
- If the grip module is damaged or no longer in use, ensure it is disposed of in a manner that prevents unauthorized use.

Contact Information for Further Support

For questions or concerns regarding the installation and usage of the Tyrant CNC Grip Module, please refer to the manufacturer's website or contact their customer support directly.

This safety instruction guide is designed to comply with the EU General Product Safety Regulation (GPSR) and aims to ensure the safe use of your product. Always prioritize safety and responsible firearm handling.
