TYRANT CNC® GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 X-MACRO®

The Evolution of the P365 Platform — Perfected by Tyrant CNC Sig Sauer's P365 series changed the game when it launched. It wasn't just another micro-compact—it was the first pistol to offer serious capacity in a truly concealable footprint. But with each iteration, Sig continued to refine the concept, pushing boundaries in modularity, shootability, and performance. Enter the P365 X Macro—the most capable version to date. And now, Tyrant CNC have taken that platform even further with the Tyrant CNC P365 X Macro Grip Module. Built from Tyrant CNC's ultra-rugged and premium carbon and glass-filled polymer composite, this full-length grip module improves on the factory frame with better ergonomics, enlarged dovetail, high grip undercut, and customized variable depth texturing—giving you the control and compatibility that serious shooters demand. What Makes the X Macro the Best P365 Yet? Unlike the original P365 or even the P365 XL, the X Macro offers something the others don't: a full 17-round capacity in a flush-fit magazine—without bloating the gun's profile. That's full size Glock G19-level firepower in a slimmer, more concealable package. Sig achieved this with a redesigned frame and magazine system that increased capacity without drastically increasing the grip size. This not only improves shootability and control, it also eliminates the need for awkward magazine extensions or grip sleeves that plagued earlier variants. And with the X Macro's 3.7" dust cover, you get full accessory compatibility—ideal for tactical applications, home defense, or any scenario where a mounted light is essential. FEATURES Full-Length 1913 Picatinny Rail: Unlike the short proprietary rails on earlier P365 models, this grip features a full 3.7" dust cover with a true mil-spec Picatinny rail. That means no adapters, no limitations—mount full-size lights and lasers without compromise. Enlarged Dovetail: Tyrant CNC took a feature seen mostly and only on full size firearms and added it to their grip module. Their dovetail gives the operator better recoil control which leads to more accurate follow up shots. Carbon + Glass-Filled Polymer Construction: Stronger than traditional polymer, lighter than aluminum, all while feeling premium. This proprietary blend offers serious rigidity, heat resistance, and impact durability—ideal for hard-use environments. Improved Ergonomics: Featuring reduced trigger reach, high grip undercut and an aggressive grip texture, this grip enhances comfort and control under rapid fire or stress shooting conditions. Flared Magwell: Speed up your reloads with a subtly integrated magwell that guides your mags into place with less fumbling and more consistency. True full-size X Macro grip module - not a hybrid or shortened variant Accepts Sig 17-round X Macro magazines (flush fit) Full-length 3.7" dust cover with 1913 Picatinny rail Made from carbon and glass-filled polymer composite Flared magwell for faster reloads Reduced trigger reach for better control Drop-in compatibility with Sig FCUs and P365 X Macro slides Supports lights like TLR-1 HL, SureFire X300, Inforce Wild2 Not California compliant - for use with standard capacity mags only SPECS Material: Carbon + glass-filled polymer Length: Full X Macro spec (3.7" dust cover) Magazine Compatibility: 17-round X Macro (standard) Weight: Lightweight, reinforced polymer Installation: Drop-in; no modifications required

Attributes

- Name: [TYRANT CNC GRIP MODULE FOR SIG SAUER P365 X-MACRO BLACK](#)
- Manufacturer: [TYRANT CNC](#)
- Product no.: 430114109
- Mfr. No.: TD-P365GRM-MACRO-BLK
- Colour: Black
- Material: Polymer
- Model: P365 XMARCO
- Style: Textured
- Surface: Textured
- Weapon type: Sig Sauer
- Delivery weight: 0.023kg
- Shipping height: 203mm
- Shipping width: 13mm
- Shipping length: 102mm
- UPC: 764046030918

Item details

Made in USA

US export classification: 0A501.y.1

Safety Instruction Guide for GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 XMACRO

Introduction

Thank you for purchasing the GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 XMACRO by Tyrant CNC. This product is designed to enhance the performance and usability of your firearm. It is essential to read and understand this safety instruction guide to ensure safe and effective use of the grip module.

General Safety Guidelines

- **Product Safety:** This product is designed to meet safety standards for nonfood items. Always follow the manufacturer's instructions for safe usage.
- **Enhanced Recalls:** In the event of a product recall, you will be notified through standardized notices. Ensure you are aware of any recall updates.
- **Online Shopping:** When purchasing online, ensure that the seller complies with safety requirements similar to those of physical stores.
- **Vulnerable Groups:** Special care should be taken when using this product around vulnerable individuals, including children.
- **EU Contact Point:** For any safety inquiries, refer to the designated EU-based contact provided by the manufacturer.
- **Rapid Alerts:** Stay informed about unsafe products through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Improper installation may lead to malfunction.
 - Using incompatible accessories can compromise safety.
 - Ensure that the grip module is compatible with the specific model of your firearm.
- **Avoiding Hazards:**
 - Always check for damage before use.
 - Do not modify the grip module in any way.
 - Ensure that the firearm is unloaded before installation or maintenance.
- **Age Restrictions:**
 - This product is intended for adult use only. Keep out of reach of children.

Instructions for Installation and Usage

- **Installation:**
 1. Ensure the firearm is unloaded and pointed in a safe direction.
 2. Remove the existing grip module from the firearm according to the manufacturer's instructions.
 3. Align the Tyrant CNC grip module with the frame of the firearm.
 4. Gently press the grip module into place until it is securely fitted.
 5. Check that the grip module is properly seated and there are no gaps.
- **Usage:**
 - Familiarize yourself with the grip module before using it in a live environment.
 - Practice handling the firearm in a safe area to ensure comfort and control.
 - Regularly inspect the grip module for wear and tear, and replace if necessary.

Disposal Instructions

- Dispose of the grip module in accordance with local regulations for plastic and polymer materials.
- Do not dispose of the product in regular household waste. Check for recycling options in your area.

Contact Information for Further Support

For further assistance or inquiries regarding safety, please refer to the manufacturer's website or contact their customer support as provided in the product packaging.

Note: This guide serves as a safety instruction manual for the GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 XMACRO and is compliant with the EU General Product Safety Regulation (GPSR). Always prioritize safety and follow all instructions carefully for optimal performance and safety.
