

GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 X-MACRO® - GRIP MODULE FOR SIG SAUER P365 X-MACRO GRAY

TYRANT CNC® GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 X-MACRO®

The Evolution of the P365 Platform — Perfected by Tyrant CNC Sig Sauer's P365 series changed the game when it launched. It wasn't just another micro-compact—it was the first pistol to offer serious capacity in a truly concealable footprint. But with each iteration, Sig continued to refine the concept, pushing boundaries in modularity, shootability, and performance. Enter the P365 X Macro—the most capable version to date. And now, Tyrant CNC have taken that platform even further with the Tyrant CNC P365 X Macro Grip Module. Built from Tyrant CNC's ultra-rugged and premium carbon and glass-filled polymer composite, this full-length grip module improves on the factory frame with better ergonomics, enlarged dovetail, high grip undercut, and customized variable depth texturing—giving you the control and compatibility that serious shooters demand. What Makes the X Macro the Best P365 Yet? Unlike the original P365 or even the P365 XL, the X Macro offers something the others don't: a full 17-round capacity in a flush-fit magazine—without bloating the gun's profile. That's full size Glock G19-level firepower in a slimmer, more concealable package. Sig achieved this with a redesigned frame and magazine system that increased capacity without drastically increasing the grip size. This not only improves shootability and control, it also eliminates the need for awkward magazine extensions or grip sleeves that plagued earlier variants. And with the X Macro's 3.7" dust cover, you get full accessory compatibility—ideal for tactical applications, home defense, or any scenario where a mounted light is essential. FEATURES Full-Length 1913 Picatinny Rail: Unlike the short proprietary rails on earlier P365 models, this grip features a full 3.7" dust cover with a true mil-spec Picatinny rail. That means no adapters, no limitations—mount full-size lights and lasers without compromise. Enlarged Dovetail: Tyrant CNC took a feature seen mostly and only on full size firearms and added it to their grip module. Their dovetail gives the operator better recoil control which leads to more accurate follow up shots. Carbon + Glass-Filled Polymer Construction: Stronger than traditional polymer, lighter than aluminum, all while feeling premium. This proprietary blend offers serious rigidity, heat resistance, and impact durability—ideal for hard-use environments. Improved Ergonomics: Featuring reduced trigger reach, high grip undercut and an aggressive grip texture, this grip enhances comfort and control under rapid fire or stress shooting conditions. Flared Magwell: Speed up your reloads with a subtly integrated magwell that guides your mags into place with less fumbling and more consistency. True full-size X Macro grip module – not a hybrid or shortened variant Accepts Sig 17-round X Macro magazines (flush fit) Full-length 3.7" dust cover with 1913 Picatinny rail Made from carbon and glass-filled polymer composite Flared magwell for faster reloads Reduced trigger reach for better control Drop-in compatibility with Sig FCUs and P365 X Macro slides Supports lights like TLR-1 HL, SureFire X300, Inforce Wild2 Not California compliant – for use with standard capacity mags only SPECS Material: Carbon + glass-filled polymer Length: Full X Macro spec (3.7" dust cover) Magazine Compatibility: 17-round X Macro (standard) Weight: Lightweight, reinforced polymer Installation: Drop-in; no modifications required

Attributes

- Name: GRIP MODULE FOR SIG SAUER P365 X-MACRO GRAY
- Manufacturer: TYRANT CNC
- Product no.: 430114110
- Mfr. No.: TD-P365GRM-MACRO-GREY
- Color: Gray
- Make: Sig Sauer
- Material: Polymer
- Model: P365 XMARCO
- Style: Textured
- Surface: Textured
- Delivery weight: 0.023kg
- Shipping height: 203mm
- Shipping width: 13mm
- Shipping length: 102mm
- UPC: 764046030925

Item details

Made in USA

US export classification: 0A501.y.1

Safety Instruction Guide for GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 XMACRO

Introduction

Thank you for purchasing the Tyrant CNC Grip Module with 1913 Rail for the Sig Sauer P365 XMacro. This guide provides essential safety instructions and guidelines to ensure safe and effective use of your new grip module. Please read this document carefully before installation and use.

General Safety Guidelines

- **Product Safety:** Always ensure that the grip module is compatible with your firearm. Improper use may lead to malfunctions or dangerous situations.
- **Enhanced Recalls:** Stay informed about any recall notices related to the product. Check the manufacturer's website or the EU Safety Gate platform for updates.
- **Online Shopping:** If purchased online, ensure that the retailer complies with EU safety requirements.
- **Special Consumer Focus:** This product is not intended for use by children. Keep it out of reach of minors.
- **EU Contact Point:** For any safety inquiries, refer to the manufacturer's contact information provided with your product.
- **Rapid Alerts:** Be aware of any alerts regarding unsafe products through the EU Safety Gate system.

Specific Safety Precautions for Use

- **Compatibility:**
 - Ensure that the grip module is specifically designed for the Sig Sauer P365 XMacro.
 - Do not attempt to use the grip module with incompatible firearms, as this may cause malfunctions.
- **Installation:**
 - Always install the grip module according to the instructions provided in this guide.
 - Ensure that the firearm is unloaded and pointed in a safe direction during installation.
- **Handling:**
 - Treat the firearm as if it is always loaded.
 - Avoid placing your finger on the trigger until you are ready to fire.
- **Maintenance:**
 - Regularly inspect the grip module for wear or damage.
 - Replace the grip module if any signs of damage are detected.
- **Usage:**
 - Use only Sig 17round X Macro magazines with the grip module.
 - Ensure that all accessories mounted on the Picatinny rail are securely attached.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded.
- Remove the existing grip module from the Sig Sauer P365 XMacro.
- Align the Tyrant CNC grip module with the firearm frame.
- Press down firmly until the grip module clicks into place.
- Ensure that the magazine release and slide stop are functioning correctly.

2. Usage:

- Load the firearm with a Sig 17round X Macro magazine.
- Check that the magazine is seated properly in the grip module.
- Engage the safety features of the firearm before handling.
- When ready to shoot, ensure you are in a safe environment.

3. Accessory Attachment:

- Attach accessories to the 1913 Picatinny rail as needed.
- Ensure all attachments are compatible and securely fastened.

Disposal Instructions

• Disposal of the Grip Module:

- When the grip module is no longer in use, dispose of it responsibly.
- Check local regulations for proper disposal methods for polymer products.
- Do not dispose of the grip module in regular household waste.

• Environmental Considerations:

- Recycle materials whenever possible.
- Ensure that any hazardous materials are disposed of according to local environmental regulations.

Contact Information for Further Support
