TYRANT CNC® GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 X-MACRO®

The Evolution of the P365 Platform — Perfected by Tyrant CNC Sig Sauer's P365 series changed the game when it launched. It wasn't just another micro-compact—it was the first pistol to offer serious capacity in a truly concealable footprint. But with each iteration, Sig continued to refine the concept, pushing boundaries in modularity, shootability, and performance. Enter the P365 X Macro—the most capable version to date. And now, Tyrant CNC have taken that platform even further with the Tyrant CNC P365 X Macro Grip Module. Built from Tyrant CNC's ultra-rugged and premium carbon and glass-filled polymer composite, this full-length grip module improves on the factory frame with better ergonomics, enlarged dovetail, high grip undercut, and customized variable depth texturing—giving you the control and compatibility that serious shooters demand. What Makes the X Macro the Best P365 Yet? Unlike the original P365 or even the P365 XL, the X Macro offers something the others don't: a full 17-round capacity in a flush-fit magazine—without bloating the gun's profile. That's full size Glock G19-level firepower in a slimmer, more concealable package. Sig achieved this with a redesigned frame and magazine system that increased capacity without drastically increasing the grip size. This not only improves shootability and control, it also eliminates the need for awkward magazine extensions or grip sleeves that plagued earlier variants. And with the X Macro's 3.7" dust cover, you get full accessory compatibility—ideal for tactical applications, home defense, or any scenario where a mounted light is essential. FEATURES Full-Length 1913 Picatinny Rail: Unlike the short proprietary rails on earlier P365 models, this grip features a full 3.7" dust cover with a true mil-spec Picatinny rail. That means no adapters, no limitations—mount full-size lights and lasers without compromise. Enlarged Dovetail: Tyrant CNC took a feature seen mostly and only on full size firearms and added it to their grip module. Their dovetail gives the operator better recoil control which leads to more accurate follow up shots. Carbon + Glass-Filled Polymer Construction: Stronger than traditional polymer, lighter than aluminum, all while feeling premium. This proprietary blend offers serious rigidity, heat resistance, and impact durability—ideal for hard-use environments. Improved Ergonomics: Featuring reduced trigger reach, high grip undercut and an aggressive grip texture, this grip enhances comfort and control under rapid fire or stress shooting conditions. Flared Magwell: Speed up your reloads with a subtly integrated magwell that guides your mags into place with less fumbling and more consistency. True full-size X Macro grip module - not a hybrid or shortened variant Accepts Sig 17-round X Macro magazines (flush fit) Full-length 3.7" dust cover with 1913 Picatinny rail Made from carbon and glass-filled polymer composite Flared magwell for faster reloads Reduced trigger reach for better control Drop-in compatibility with Sig FCUs and P365 X Macro slides Supports lights like TLR-1 HL, SureFire X300, Inforce Wild2 Not California compliant - for use with standard capacity mags only SPECS Material: Carbon + glass-filled polymer Length: Full X Macro spec (3.7" dust cover) Magazine Compatibility: 17-round X Macro (standard) Weight: Lightweight, reinforced polymer Installation: Drop-in; no modifications required

Attributes

- Name: [TYRANT CNC GRIP MODULE FOR SIG SAUER P365 X-MACRO GRAY](#)

Safety Instruction Guide for GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 XMACRO

Introduction

Thank you for choosing the Tyrant CNC Grip Module with 1913 Rail for your Sig Sauer P365 XMacro. This product is designed to enhance your shooting experience by providing improved ergonomics, control, and compatibility. However, it is important to use this product safely and responsibly. This guide provides essential safety information and instructions for the safe use and installation of your new grip module.

General Safety Guidelines

- **Product Safety:** Ensure that you use the grip module in accordance with the guidelines provided. This product is designed for safe use, but improper handling can lead to accidents.
- **Enhanced Recalls:** Stay informed about any product recalls. If you receive a recall notice, follow the instructions provided to remedy the situation.
- **Online Shopping:** If you purchased this product online, ensure that the retailer complies with safety standards similar to those of physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Always keep it out of reach of minors.
- **EU Contact Point:** For safety inquiries regarding this product, please refer to the contact information provided by the retailer or manufacturer.
- **Rapid Alerts:** Monitor the EU Safety Gate platform for updates on product safety and recalls.

Specific Safety Precautions for Use

- **Check Compatibility:** Ensure the grip module is compatible with your specific model of Sig Sauer P365 XMacro.
- **Inspect Before Use:** Before each use, inspect the grip module for any signs of damage or wear. Do not use if damaged.
- **Secure Installation:** Ensure that the grip module is properly installed and secured to the firearm before use.
- **Proper Handling:** Always handle your firearm with care. Treat it as if it is loaded, even if you believe it is not.
- **Avoid Modifications:** Do not modify the grip module or any components of your firearm. Unauthorized modifications can compromise safety.
- **Use Appropriate Ammunition:** Only use ammunition that is recommended for your firearm model. Using incorrect ammunition can lead to malfunctions and accidents.

Instructions for Installation and Usage

1. Installation:

- Ensure your firearm is unloaded before beginning installation.
- Remove the existing grip module from your Sig Sauer P365 XMacro according to the manufacturer's instructions.
- Align the Tyrant CNC Grip Module with the firearm frame and press it into place until it clicks securely.
- Check that the grip module is firmly attached and does not move.

2. Usage:

- Grip the firearm firmly by the new grip module, ensuring your fingers are positioned correctly on

the trigger and trigger guard.

- Practice shooting in a safe environment to become accustomed to the new grip module.
- Always use appropriate safety gear, such as eye and ear protection when shooting.

Disposal Instructions

- **Environmental Considerations:** Dispose of the grip module in accordance with local regulations regarding plastic products. Do not dispose of it in regular household waste.
- **Recycling:** If possible, recycle the grip module through a local recycling program that accepts polymer materials.

Contact Information for Further Support

For any questions or concerns regarding the use or safety of the Tyrant CNC Grip Module, please refer to the contact information provided by your retailer or the manufacturer's website. Always ensure you have the most current information regarding product safety and support.

By following these safety guidelines and instructions, you can ensure a safer and more enjoyable experience with your Tyrant CNC Grip Module for the Sig Sauer P365 XMacro. Thank you for prioritizing safety in your shooting activities.
