

GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 X-MACRO® - GRIP MODULE FOR SIG SAUER P365 X-MACRO FDE

TYRANT CNC® GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 X-MACRO®

The Evolution of the P365 Platform — Perfected by Tyrant CNC Sig Sauer's P365 series changed the game when it launched. It wasn't just another micro-compact—it was the first pistol to offer serious capacity in a truly concealable footprint. But with each iteration, Sig continued to refine the concept, pushing boundaries in modularity, shootability, and performance. Enter the P365 X Macro—the most capable version to date. And now, Tyrant CNC have taken that platform even further with the Tyrant CNC P365 X Macro Grip Module. Built from Tyrant CNC's ultra-rugged and premium carbon and glass-filled polymer composite, this full-length grip module improves on the factory frame with better ergonomics, enlarged dovetail, high grip undercut, and customized variable depth texturing—giving you the control and compatibility that serious shooters demand. What Makes the X Macro the Best P365 Yet? Unlike the original P365 or even the P365 XL, the X Macro offers something the others don't: a full 17-round capacity in a flush-fit magazine—without bloating the gun's profile. That's full size Glock G19-level firepower in a slimmer, more concealable package. Sig achieved this with a redesigned frame and magazine system that increased capacity without drastically increasing the grip size. This not only improves shootability and control, it also eliminates the need for awkward magazine extensions or grip sleeves that plagued earlier variants. And with the X Macro's 3.7" dust cover, you get full accessory compatibility—ideal for tactical applications, home defense, or any scenario where a mounted light is essential. FEATURES Full-Length 1913 Picatinny Rail: Unlike the short proprietary rails on earlier P365 models, this grip features a full 3.7" dust cover with a true mil-spec Picatinny rail. That means no adapters, no limitations—mount full-size lights and lasers without compromise. Enlarged Dovetail: Tyrant CNC took a feature seen mostly and only on full size firearms and added it to their grip module. Their dovetail gives the operator better recoil control which leads to more accurate follow up shots. Carbon + Glass-Filled Polymer Construction: Stronger than traditional polymer, lighter than aluminum, all while feeling premium. This proprietary blend offers serious rigidity, heat resistance, and impact durability—ideal for hard-use environments. Improved Ergonomics: Featuring reduced trigger reach, high grip undercut and an aggressive grip texture, this grip enhances comfort and control under rapid fire or stress shooting conditions. Flared Magwell: Speed up your reloads with a subtly integrated magwell that guides your mags into place with less fumbling and more consistency. True full-size X Macro grip module – not a hybrid or shortened variant Accepts Sig 17-round X Macro magazines (flush fit) Full-length 3.7" dust cover with 1913 Picatinny rail Made from carbon and glass-filled polymer composite Flared magwell for faster reloads Reduced trigger reach for better control Drop-in compatibility with Sig FCUs and P365 X Macro slides Supports lights like TLR-1 HL, SureFire X300, Inforce Wild2 Not California compliant – for use with standard capacity mags only SPECS Material: Carbon + glass-filled polymer Length: Full X Macro spec (3.7" dust cover) Magazine Compatibility: 17-round X Macro (standard) Weight: Lightweight, reinforced polymer Installation: Drop-in; no modifications required

Attributes

- Name: GRIP MODULE FOR SIG SAUER P365 X-MACRO FDE
- Manufacturer: TYRANT CNC
- Product no.: 430114112
- Mfr. No.: TD-P365GRM-MACRO-FDE
- Color: Flat Dark Earth
- Make: Sig Sauer
- Material: Polymer
- Model: P365 XMARCO
- Style: Textured
- Surface: Textured
- Delivery weight: 0.023kg
- Shipping height: 203mm
- Shipping width: 13mm
- Shipping length: 102mm
- UPC: 764046031663

Item details

Made in USA

US export classification: 0A501.y.1

Safety Instruction Guide for GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 XMACRO®

Introduction

Thank you for choosing the Tyrant CNC Grip Module with 1913 Rail for the Sig Sauer P365 XMacro. This product has been designed with the utmost attention to safety and performance. Please read this safety instruction guide carefully to ensure safe and effective use of the grip module.

General Safety Guidelines

- **Product Safety:** This product is designed for safe use. Ensure that you are familiar with all safety guidelines before using the grip module.
- **Enhanced Recalls:** In the event of a product recall, you will be informed through standardized notices. Always check for updates regarding your product.
- **Online Shopping:** If purchased online, the same safety protections apply as if you bought the product in a physical store. Ensure that the platform complies with safety standards.
- **Special Consumer Focus:** This product is not intended for use by children. Keep all parts and accessories out of reach of children.
- **EU Contact Point:** For any safety inquiries, please reach out to the designated EU contact point for this product.
- **Rapid Alerts:** Stay informed about any safety updates or alerts regarding this product through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Compatibility:** Ensure that the grip module is compatible with the Sig Sauer P365 XMacro before installation. It is designed for use with 17round X Macro magazines.
- **Inspection:** Before each use, inspect the grip module for any signs of damage or wear. Do not use if damaged.
- **Proper Handling:** Always handle the firearm in a safe manner. Treat every firearm as if it is loaded.
- **Environment:** Use the grip module in a safe environment, free from distractions and hazards.
- **Training:** Ensure that you are trained in the safe handling and operation of firearms before using this product.

Instructions for Installation and Usage

1. Installation:

- Ensure that your firearm is unloaded and pointed in a safe direction.
- Remove the existing grip module from your Sig Sauer P365 XMacro according to the manufacturer's instructions.
- Align the Tyrant CNC Grip Module with the firearm's frame.
- Press the grip module into place until it is securely attached.
- Check for any gaps between the grip module and the frame to ensure a proper fit.

2. Usage:

- Once installed, familiarize yourself with the grip module's features, including the fulllength 1913 Picatinny rail for accessory mounting.
- Practice using the grip module at a shooting range to become accustomed to its ergonomics and handling.
- Always maintain proper shooting posture and grip technique while using the firearm.

Disposal Instructions

- **Recycling:** Dispose of the grip module in accordance with local recycling regulations. Do not dispose of it in regular household waste.
- **Hazardous Materials:** If the grip module is damaged, take special care to dispose of it properly to avoid environmental harm.

Contact Information for Further Support

For further support regarding the Tyrant CNC Grip Module, please refer to the manufacturer's website or customer service for assistance. Ensure that you have the product details ready for a more efficient response.

By following these guidelines, you can ensure safe and effective use of your Grip Module with 1913 Rail for Sig Sauer P365 XMacro. Thank you for your attention to safety!
