TYRANT CNC® GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 X-MACRO®

The Evolution of the P365 Platform — Perfected by Tyrant CNC Sig Sauer's P365 series changed the game when it launched. It wasn't just another micro-compact—it was the first pistol to offer serious capacity in a truly concealable footprint. But with each iteration, Sig continued to refine the concept, pushing boundaries in modularity, shootability, and performance. Enter the P365 X Macro—the most capable version to date. And now, Tyrant CNC have taken that platform even further with the Tyrant CNC P365 X Macro Grip Module. Built from Tyrant CNC's ultra-rugged and premium carbon and glass-filled polymer composite, this full-length grip module improves on the factory frame with better ergonomics, enlarged dovetail, high grip undercut, and customized variable depth texturing—giving you the control and compatibility that serious shooters demand. What Makes the X Macro the Best P365 Yet? Unlike the original P365 or even the P365 XL, the X Macro offers something the others don't: a full 17-round capacity in a flush-fit magazine—without bloating the gun's profile. That's full size Glock G19-level firepower in a slimmer, more concealable package. Sig achieved this with a redesigned frame and magazine system that increased capacity without drastically increasing the grip size. This not only improves shootability and control, it also eliminates the need for awkward magazine extensions or grip sleeves that plagued earlier variants. And with the X Macro's 3.7" dust cover, you get full accessory compatibility—ideal for tactical applications, home defense, or any scenario where a mounted light is essential. FEATURES Full-Length 1913 Picatinny Rail: Unlike the short proprietary rails on earlier P365 models, this grip features a full 3.7" dust cover with a true mil-spec Picatinny rail. That means no adapters, no limitations—mount full-size lights and lasers without compromise. Enlarged Dovetail: Tyrant CNC took a feature seen mostly and only on full size firearms and added it to their grip module. Their dovetail gives the operator better recoil control which leads to more accurate follow up shots. Carbon + Glass-Filled Polymer Construction: Stronger than traditional polymer, lighter than aluminum, all while feeling premium. This proprietary blend offers serious rigidity, heat resistance, and impact durability—ideal for hard-use environments. Improved Ergonomics: Featuring reduced trigger reach, high grip undercut and an aggressive grip texture, this grip enhances comfort and control under rapid fire or stress shooting conditions. Flared Magwell: Speed up your reloads with a subtly integrated magwell that guides your mags into place with less fumbling and more consistency. True full-size X Macro grip module - not a hybrid or shortened variant Accepts Sig 17-round X Macro magazines (flush fit) Full-length 3.7" dust cover with 1913 Picatinny rail Made from carbon and glass-filled polymer composite Flared magwell for faster reloads Reduced trigger reach for better control Drop-in compatibility with Sig FCUs and P365 X Macro slides Supports lights like TLR-1 HL, SureFire X300, Inforce Wild2 Not California compliant - for use with standard capacity mags only SPECS Material: Carbon + glass-filled polymer Length: Full X Macro spec (3.7" dust cover) Magazine Compatibility: 17-round X Macro (standard) Weight: Lightweight, reinforced polymer Installation: Drop-in; no modifications required

Attributes

- Name: [TYRANT CNC GRIP MODULE FOR SIG SAUER P365 X-MACRO FDE](#)
- Manufacturer: [TYRANT CNC](#)
- Product no.: 430114112
- Mfr. No.: TD-P365GRM-MACRO-FDE
- Colour: Flat Dark Earth
- Material: Polymer
- Model: P365 XMARCO
- Style: Textured
- Surface: Textured
- Weapon type: Sig Sauer
- Delivery weight: 0.023kg
- Shipping height: 203mm
- Shipping width: 13mm
- Shipping length: 102mm
- UPC: 764046031663

Item details

Made in USA

US export classification: 0A501.y.1

Safety Instruction Guide for GRIP MODULE W/1913 RAIL FOR SIG SAUER P365 XMACRO® TYRANT CNC GRIP MODULE

Introduction

Thank you for choosing the Tyrant CNC Grip Module for the Sig Sauer P365 XMacro. This guide provides essential safety instructions and guidelines for the proper use, installation, and disposal of this product. Please read this document carefully to ensure safe and effective use.

General Safety Guidelines

- **Product Safety:** This product is designed to enhance the performance and usability of the Sig Sauer P365 XMacro while ensuring safety during use.
- **Potential Hazards:** Improper installation or use may lead to accidents or injuries. Always follow the instructions provided.
- **Enhanced Recalls:** In the event of a safety recall, you will be notified through standardized notices. Ensure you keep updated with any recall information.
- **Online Shopping:** If purchased online, ensure that the seller complies with safety requirements. Verify product authenticity and safety features.
- **Special Consumer Focus:** This product is intended for adult users only. Keep out of reach of children and unauthorized users.
- **EU Contact Point:** For safety inquiries, ensure you have access to the manufacturer's contact information.
- **Rapid Alerts:** Stay informed about any product safety updates through the EU Safety Gate platform.

Specific Safety Precautions for Use

- **Installation Precautions:**
 - Ensure that the firearm is unloaded before installation.
 - Follow all installation instructions carefully to avoid improper fitting.
- **Usage Precautions:**
 - Always handle the firearm with care and treat it as if it is loaded.
 - Use only compatible magazines (17round X Macro) to ensure proper function.
 - Avoid using the grip module in conditions where it may be subjected to extreme heat or impact.
- **Storage Precautions:**
 - Store the firearm and grip module in a secure location, away from children and unauthorized users.
 - Ensure the firearm is stored in a locked cabinet or safe when not in use.

Instructions for Installation and Usage

Installation Steps

1. Prepare the Firearm:

- Ensure the Sig Sauer P365 XMacro is unloaded and pointed in a safe direction.

2. Remove the Existing Grip:

- Carefully detach the factory grip module from the firearm following the manufacturer's instructions.

3. Install the Tyrant CNC Grip Module:

- Align the Tyrant CNC Grip Module with the firearm's frame.
- Press firmly until the module is securely fitted.
- Ensure that the module is properly seated and that there are no gaps.

4. Check Compatibility:

- Verify that the grip module is compatible with your Sig Sauer P365 XMacro slides and FCUs.

5. Final Check:

- Inspect the installation for any signs of improper fitting. If any issues are present, consult a qualified gunsmith.

Usage Instructions

• Loading the Magazine:

- Use only the approved 17round X Macro magazines.
- Follow proper loading techniques to avoid jams or misfeeds.

• Shooting:

- Always wear appropriate eye and ear protection when shooting.
- Maintain a firm grip on the firearm during use.
- Be aware of your surroundings and ensure a safe shooting environment.

• Cleaning and Maintenance:

- Regularly clean the grip module and firearm to ensure optimal performance.
- Use appropriate cleaning materials that do not damage the polymer composite.

Disposal Instructions

• Disposal of the Grip Module:

- Dispose of the grip module in accordance with local regulations for plastic waste.
- Do not incinerate or expose the module to extreme heat.

• Disposal of Magazines:

- Ensure that magazines are emptied before disposal.
- Follow local laws regarding the disposal of firearm accessories.

Contact Information for Further Support

For any questions or concerns regarding the installation, usage, or safety of the Tyrant CNC Grip Module, please refer to the manufacturer's contact details included with your product packaging. It is important to seek assistance from qualified professionals if you encounter any issues.

Thank you for your attention to these safety guidelines. Your safety and the safety of others depend on your responsible use of this product.
