

# CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 25 CREEDMOOR BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

## Attributes

## 25 CREEDMOOR BULLET SEATING DIE Safety

### Instruction Guide

#### Introduction

Thank you for choosing the L.E. Wilson Chamber Type Bullet Seater Die for 25 Creedmoor. This product is designed for precision bullet seating and is favored by benchrest shooters for its accuracy. However, it is important to follow safety guidelines to ensure safe use and optimal performance. This guide provides essential safety instructions, precautions, and disposal information in compliance with the EU General Product Safety Regulation (GPSR).

#### General Safety Guidelines

- Ensure that you are familiar with the die and its components before use.
- Always use the die in a wellventilated area to avoid inhaling any dust or particles.
- Keep the die and all related components out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding ammunition reloading and usage.

#### Specific Safety Precautions for Use

- Use only with the appropriate cartridge (25 Creedmoor) to prevent malfunctions.
- Ensure that the die is securely mounted in a reloading press before use.
- Always wear safety glasses to protect your eyes from any potential debris or accidents during the reloading process.
- Do not exceed the recommended load specifications for the 25 Creedmoor cartridge.
- Avoid distractions while using the die to maintain focus and precision.

#### Instructions for Installation and Usage

##### 1. Installation:

- Securely mount the L.E. Wilson Bullet Seater Die in your reloading press.
- Ensure that the die is tightened properly to prevent any movement during use.
- Adjust the seating stem according to the desired bullet seating depth.

##### 2. Usage:

- Place a cartridge case into the die, ensuring it is fully seated.
- Insert the bullet into the case mouth, making sure it is aligned properly.
- Carefully operate the reloading press to push the bullet into the case.
- Check the bullet seating depth with a caliper to ensure it meets your specifications.
- Repeat the process for additional cartridges, maintaining a consistent technique for accuracy.

#### Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Instead, check for local recycling programs or hazardous waste disposal options.
- Ensure that all packaging materials are disposed of responsibly, following local recycling guidelines.

## Contact Information for Further Support

For any inquiries or support regarding the L.E. Wilson Chamber Type Bullet Seater Die, please contact the manufacturer or your local distributor. It is important to address any concerns or questions you may have to ensure safe and effective use of the product.

## Conclusion

By following the safety guidelines and instructions outlined in this guide, you can ensure a safe and effective experience while using the L.E. Wilson Chamber Type Bullet Seater Die for 25 Creedmoor. Always prioritize safety and remain informed about best practices in ammunition reloading. Thank you for your commitment to safe handling and usage.
