

BUSHING FULL LENGTH DIES - L.E. WILSON 25 CREEDMOOR

BUSHING FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson Bushing Type Full Length Sizing Die. This die will allow you to size the case neck to your desired neck tension along with sizing down the rest of the case body at the same time. Die includes an adjustable depth decapping rod. An extra Decapping Punch is included. These dies do not contain an expander. Made of High Quality Heat Treated Steel. These Full Length Bushing dies mimic the neck sizing of Wilsons' neck sizing dies and are designed to leave 3/16" at the bottom of the case neck unsized, a practice many shooters prefer and find to be more accurate than sizing the full neck. Made from High Quality Material - Hardened to L.E. Wilson Specifications Harder than a Grade 8 Bolt Interchangeable Bushings Standard 7/8ths Reloading Press Sizes Shoulder and Body Dimensions Stainless Parts for a Long Lasting Finish Durable and Accurate L.E. Wilson manufactured lock nut - thickness is .225" from inside to outermost edge .270" for height and 1.250" total width OD. Neck Bushing sold separately, we suggest using LE Wilson Neck bushings but Redding bushings will also fit.

Safety Instruction Guide for Bushing Full Length Dies L.E. Wilson 25 Creedmoor

Introduction

Thank you for choosing the Bushing Full Length Dies L.E. Wilson 25 Creedmoor. This product is designed to help you achieve precise case neck sizing while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Always follow the manufacturer's instructions when using the die.
- Ensure that the reloading press is compatible with the die specifications.
- Wear appropriate safety gear, including eye protection, when reloading.
- Keep the work area clean and organized to prevent accidents.
- Store the die in a secure place, away from children and pets.
- Regularly inspect the die for wear or damage before each use.

Specific Safety Precautions for Use

- **Hazard Identification:** The die may contain sharp edges and moving parts. Handle with care to avoid cuts or injuries.
- **Neck Sizing:** Follow the recommended practices for neck sizing to ensure optimal performance and safety.
- **Decapping Rod:** Ensure that the adjustable depth decapping rod is correctly set before use to prevent malfunctions.
- **No Expanders:** This die does not include an expander. Ensure you are familiar with the reloading process for your specific cartridges.
- **Interchangeable Bushings:** Use only compatible bushings. L.E. Wilson Neck bushings are recommended, but Redding bushings may also fit.

Instructions for Installation and Usage

1. Installation:

- Secure the die in a standard 7/8ths reloading press.
- Ensure the die is tightened properly to avoid movement during use.
- Adjust the decapping rod to your desired depth before starting the reloading process.

2. Usage:

- Prepare your cases by cleaning and inspecting them for damage.
- Insert the case into the die and ensure it is seated correctly.
- Operate the reloading press smoothly to size the case neck and body simultaneously.
- After sizing, remove the case and inspect it for proper neck tension.
- Repeat the process as necessary for additional cases.

Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for local recycling or hazardous waste disposal options.

Contact Information for Further Support

For any safety inquiries or product support, please refer to the manufacturer's contact information provided with the product.

Thank you for your attention to these safety instructions. Your safety is our priority, and following these guidelines will help ensure a safe reloading experience.
