Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Die

Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Die for your reloading needs. This guide provides essential safety information to ensure the safe and effective use of this product. Please read this guide carefully before use.

General Safety Guidelines

- Product Safety:
 - Ensure safe handling and use of the bullet seater die.
 - Be aware of potential risks associated with reloading ammunition.
- Enhanced Recalls:
 - Stay informed about any product recalls or safety notices.
- Online Shopping:
 - If purchased online, ensure that the retailer complies with safety regulations.
- Special Consumer Focus:
 - Extra caution should be taken when used by individuals who are inexperienced or vulnerable, such as young adults new to reloading.
- EU Contact Point:
 - For any safety inquiries, contact the retailer or manufacturer directly.
- Rapid Alerts:
 - Regularly check the EU's Safety Gate platform for updates on product safety.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection and gloves, when handling reloading equipment.
- Ensure the workspace is clean, organized, and free from distractions.
- Keep the die and all reloading components out of reach of children and unauthorized individuals.
- Do not exceed the recommended bulletseating depth or use incompatible components.
- Inspect the die for any signs of damage or wear before each use.
- Follow the manufacturer's guidelines for the specific cartridge being used.

Instructions for Installation and Usage

1. Installation:

- Ensure your Arbor Press is securely mounted on a stable surface.
- Insert the L.E. Wilson Micrometer Top Bullet Seater Die into the Arbor Press.

- Adjust the die to the desired height by using the threaded cap for major adjustments.

2. Usage:

- Prepare your bullets and cases according to standard reloading practices.
- Place a bullet in the die and use the micrometer top to adjust the seating depth in 0.001" increments.
- Perform a test seating by applying pressure to the Arbor Press. Ensure the bullet is seated to the desired depth.
- Make any necessary adjustments using the micrometer top before proceeding with additional rounds.
- Always check the seating depth after every few rounds to ensure consistency.

Disposal Instructions

- Dispose of any used or damaged components in accordance with local regulations.
- Ensure that all reloading materials are stored safely and securely until they can be disposed of properly.

Contact Information for Further Support

For any questions regarding the L.E. Wilson Micrometer Top Bullet Seater Die, please contact your retailer or the manufacturer directly. They can provide more detailed information and assistance.

Thank you for your attention to these safety guidelines. Proper use and care of your L.E. Wilson Micrometer Top Bullet Seater Die will ensure a safe and enjoyable reloading experience.
