Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Die

Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Die. This product is designed to help you achieve precise bulletseating depths for your reloading needs. To ensure your safety and the proper use of this product, please read and follow the guidelines outlined in this manual.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, such as safety glasses, when reloading.
- Keep the workspace clean and organized to avoid accidents.
- Store the die and all reloading components out of reach of children and unauthorized users.
- Be aware of the potential hazards associated with reloading, including the handling of gunpowder and primers.

Specific Safety Precautions for Use

- Only use the L.E. Wilson Micrometer Top Bullet Seater Die with an Arbor Press.
- Avoid applying excessive force during the bullet seating process to prevent damage to the die and ensure safety.
- Always check the die for any signs of wear or damage before each use.
- Do not exceed the recommended specifications for bullet seating depths as indicated by the manufacturer.
- Be cautious when adjusting the micrometer settings to ensure accurate measurements.

Instructions for Installation and Usage

1. Installation:

- Securely attach the L.E. Wilson Micrometer Top Bullet Seater Die to your Arbor Press following the manufacturer's instructions.
- Ensure that the die is properly aligned and tightened before use.

2. Usage:

- Prepare your components: Make sure you have all necessary materials, including bullets, cases, and powder.
- Adjust the micrometer: Use the scale on the micrometer top to set the desired bullet seating depth in 0.001" increments.
- Load the bullet: Place the bullet into the case and position it under the die.
- Apply pressure: Gently pull the Arbor Press handle to seat the bullet. Avoid using excessive force.
- Check the seating depth: After seating the bullet, measure the overall length to ensure it meets your specifications.
- Repeat: Continue the process for additional rounds, adjusting the micrometer as needed.

Disposal Instructions

- Dispose of any unused or expired reloading materials according to local regulations.
- Follow local guidelines for the disposal of metal and plastic components.
- Do not dispose of hazardous materials in regular trash. Contact your local waste management authority

for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the L.E. Wilson Micrometer Top Bullet Seater Die, please refer to the manufacturer's website or contact their customer service for assistance.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with the L.E. Wilson Micrometer Top Bullet Seater Die. Always prioritize safety and adhere to best practices while reloading.
