

6MM PPC BRASS - ALPHA MUNITIONS 6MM PPC SMALL RIFLE PRIMER BRASS 100/BOX

ALPHA MUNITIONS 6MM PPC BRASS The 6mm PPC (Palmisano & Pindel Cartridge), is a centerfire rifle cartridge created in 1975 by benchrest shooters Lou Palmisano and Ferris Pindell. It is renowned for its exceptional accuracy at short to medium ranges (up to 300 yards) and is a dominant force in benchrest shooting competitions. The Alpha 6mm PPC brass uses Small Rifle primers and ships in 100 count custom Alpha Munitions plastic cases with perforated bi-layer foam for protection of cases during shipping and can be used for loaded ammunition. Each 6mm PPC case produced by Alpha Munitions also incorporates the company's OCD with optimized case head technology, which is designed to lengthen primer pocket life, as well as the life of the case overall, even at higher than normal pressures and velocities.

Safety Instruction Guide for 6MM PPC Brass

Alpha Munitions

Introduction

Thank you for choosing the 6MM PPC Brass from Alpha Munitions. This product is designed for use in centerfire rifle cartridges and has been crafted with precision to ensure safety and performance. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Ensure that you are of legal age and have the necessary permits to purchase and use ammunition components in your jurisdiction.
- Always handle ammunition and components with care. Treat every cartridge as if it is loaded.
- Store the brass in a cool, dry place away from direct sunlight and moisture to prevent corrosion.
- Keep the brass out of reach of children and unauthorized individuals.
- Regularly inspect the brass for any signs of damage or wear before use.
- Follow all local laws and regulations regarding the use and storage of ammunition components.

Specific Safety Precautions for Use

- Use only small rifle primers that are compatible with the 6MM PPC brass.
- Ensure that your reloading equipment is in good working condition before beginning the reloading process.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when handling ammunition components.
- Avoid overloading the brass beyond its specified limits to prevent potential hazards such as case failure or injury.
- If you experience any malfunctions or misfires, follow proper procedures for handling such incidents. Do not attempt to disassemble or tamper with malfunctioning ammunition.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the 6MM PPC brass, small rifle primers, powder, and bullets.
- Ensure your workspace is clean and free from distractions.

2. Reloading Process:

- Inspect each brass case for cleanliness and integrity before reloading.
- Insert the small rifle primer into the primer pocket of the brass using a primer seating tool.
- Measure and add the appropriate amount of powder according to your reloading manual.
- Seat the bullet firmly into the brass case, ensuring it is at the correct overall length for your firearm.

3. Final Checks:

- Doublecheck all loaded ammunition for proper assembly and functionality before use.
- Store completed ammunition in a safe, designated area away from children and unauthorized users.

Disposal Instructions

- Dispose of any unused or damaged brass in accordance with local regulations.
- Do not throw brass in regular trash; instead, consider recycling or using designated hazardous waste disposal services.
- Ensure that all primers and powder are disposed of safely, following the guidelines provided by your local waste management authorities.

Contact Information for Further Support

For any questions or concerns regarding the 6MM PPC Brass from Alpha Munitions, please refer to the official website or contact customer service through the appropriate channels provided at the point of purchase.

By following these safety guidelines and instructions, you can ensure a safe and enjoyable experience with your 6MM PPC brass. Always prioritize safety in all aspects of ammunition handling and reloading.
