

410 BORE BREECH STRIPPED BOLT FOR REMINGTON 1100 NEW STYLE - REMINGTON 410 BORE BREECH STRIPPED BOLT FOR REM 1100 NEW STYLE NICKEL

REMINGTON 410 BORE BREECH STRIPPED BOLT CARRIER FOR REMINGTON 1100 NEW STYLE Restore smooth, reliable cycling in your .410-bore Remington 1100 with this New-Style Breech Stripped Bolt Carrier, precision-engineered to OEM specifications and finished in a durable nickel-plated coating. Designed specifically for .410 models, this carrier delivers the controlled bolt movement, consistent shell handling, and dependable timing required for the smaller-bore 1100 action. The nickel plating enhances corrosion resistance, reduces friction, and promotes cleaner operation—ideal for high-volume shooting or long-term field use. As a stripped unit, it's ready to accept your bolt components, making it a perfect replacement for worn parts or a key piece in a full .410 action rebuild. Built for smooth function and long service life, this bolt carrier keeps your 1100 running the way it should. NOTE: These items are a new, authentic Remington products acquired directly from Remington's OEM inventory. This item is guaranteed to be unused and fully functional.

Safety Instruction Guide for 410 Bore Breech Stripped Bolt for Remington 1100

Introduction

Thank you for choosing the 410 Bore Breech Stripped Bolt for your Remington 1100. This product is designed to enhance the performance of your firearm by ensuring smooth and reliable cycling. Please read this safety instruction guide carefully to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- **Product Safety:** Ensure safe use of this product by following all instructions and guidelines provided.
- **Enhanced Recalls:** Be aware that standardized recall notices may be issued for dangerous products.
- **Online Shopping:** If purchased online, confirm that the seller complies with safety requirements.
- **Special Consumer Focus:** Extra safeguards are in place for vulnerable groups, including children.
- **EU Contact Point:** For safety inquiries, ensure there is an EU-based contact available.
- **Rapid Alerts:** Stay updated on unsafe products through the Safety Gate system.

Specific Safety Precautions for Use

- Always ensure the firearm is unloaded before installing or handling the bolt carrier.
- Wear appropriate safety gear, including eye protection, when working with firearms.
- Keep the product out of reach of children and unauthorized users.
- Inspect the bolt carrier for any signs of damage before use.
- Do not modify or alter the bolt carrier in any way.
- Follow all local laws and regulations regarding firearm modifications and usage.

Instructions for Installation and Usage

1. Preparation

- Ensure the firearm is completely unloaded and pointed in a safe direction.
- Gather necessary tools for installation.

2. Installation Steps

- Remove the existing bolt carrier from the Remington 1100.
- Carefully insert the new 410 Bore Breech Stripped Bolt Carrier into the receiver.
- Ensure that the bolt carrier is seated properly and securely in place.
- Reassemble any additional components that were removed during the process.

3. Usage

- Test the firearm in a safe environment to ensure proper cycling and functionality.
- Monitor the performance of the bolt carrier during use, checking for any irregularities.

Disposal Instructions

- Dispose of any old or damaged parts in accordance with local regulations.
- Recycle materials when possible, ensuring that hazardous materials are handled appropriately.

Contact Information for Further Support

For any questions or concerns regarding the 410 Bore Breech Stripped Bolt or its usage, please consult the retailer or manufacturer from whom the product was purchased.

By following these safety instructions, you can ensure a safe and enjoyable experience with your Remington 1100 and its new bolt carrier. Thank you for your attention to safety and compliance.
