

PMAG® 30 GEN M3™! 5.56 NATO RIFLE MAGAZINE W/WINDOW FOR AR-15 - MAGPUL PMAG 30 AR/M4 GEN M3 WINDOW, 5.56X45

[Magazines](#) > [Rifle Magazines](#) > [Magazines](#)

Super-Durable & Ultra-Dependable PMAG Refined & Battle-Hardened By Combat Experience

The next-generation PMAG 30 GEN M3 Window is a 30-round 5.56x45 NATO (.223 Remington) polymer magazine for AR15/M4 compatible weapons that features transparent windows to allow rapid visual identification of approximate number of rounds remaining. Along with expanded feature set and compatibility, the GEN M3 Window incorporates new material technology and manufacturing processes for enhanced strength, durability, and reliability to exceed rigorous military performance specifications. While the GEN M3 is optimized for Colt-spec AR15/M4 platforms, modified internal and external geometry also permits operation with a range of additional weapons such as the HK® 416/MR556A1/M27 IAR, British SA-80, FN® SCAR MK 16/16S, and others. Similar to the MOE® PMAG, the GEN M3 Window features a long-life USGI-spec stainless steel spring, four-way anti-tilt follower and constant-curve internal geometry for reliable feeding, and simple tool-less disassembly to ease cleaning. In addition, a redesigned bolt catch notch in the rear of the magazine provides increased bolt catch clearance, while an over-travel stop on the spine helps ensure the magazine will not over-insert on compatible weapons. Low profile ribs and new aggressive front and rear texture gives positive control of the GEN M3 in all environments, and a paint pen dot matrix has been added to the bottom panel of the body to allow easy marking by the end user for identification. The new, easy to disassemble flared floorplate aids extraction and handling of the magazine while providing improved drop protection, but is slightly slimmer than before for better compatibility with tight double and triple magazine pouches. Durable dual-side transparent windows allow for quick determination of approximate number of rounds remaining in the magazine. Utilizing a high visibility indicator coil on the spring and numerical markers on the magazine body, the MagLevel® system provides positive verification without affecting the durability or reliability of the magazine. FEATURES 30-round reliability and no stoppages Anti-glare translucent MagLevel windows on both sides of the body along with a painted indicator on the spring allows for easy determination of rounds remaining from 1 to 30 Next-generation impact and crush-resistant polymer construction Modified dimensions allow for wider compatibility with non Colt-spec 'STANAG 4179' platforms The anti-tilt, self-lubricating follower ensures a smooth feed and magazine reliability Constant-curve internal geometry, over-travel insertion stop on the spine, and a long-life stainless steel spring ensure smooth feeding Paint pen dot matrix panels on the bottom of the body to allow for identification marking Its ribbed gripping surface and aggressive front and rear texture provide positive magazine handling Improved slimmer floorplate aids magazine handling and disassembly and is slim enough for use with many double and triple pouches Made in the USA. SPECS Caliber: 5.56x45mm / .223 Remington Platform: AR15, M4, M16, SA-80 Capacity: 30 Rounds Weight: 5 oz. Length, max: 7.5 in. Compatibility: Wide compatibility with most 'STANAG 4179' platforms such as the AR15, M4, M16, SCAR MK16/16S, HK416, MR556, M27 IAR, IWI Tavor, and others NOTE: DOES NOT INCLUDE DUST COVER

PMAG® 30 GEN M3 Window Safety Instruction Guide

Introduction

Thank you for choosing the PMAG® 30 GEN M3 Window, a highquality polymer magazine designed for AR15 and compatible platforms. This guide provides essential safety instructions to ensure safe handling, usage, and disposal of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

To ensure safe use of the PMAG® 30 GEN M3 Window, please adhere to the following guidelines:

- Always handle the magazine with care and ensure it is unloaded before inspection or maintenance.
- Store the magazine in a cool, dry place away from direct sunlight and extreme temperatures.
- Keep the magazine out of reach of children and unauthorized persons.
- Regularly inspect the magazine for any signs of wear or damage. Do not use if damaged.
- Follow all local laws and regulations regarding the use and storage of firearm magazines.

Specific Safety Precautions for Use

When using the PMAG® 30 GEN M3 Window, please follow these specific safety precautions:

- Ensure that the magazine is compatible with your firearm before use.
- Do not exceed the magazine's capacity of 30 rounds to avoid malfunction.
- Always use appropriate ammunition (5.56x45 NATO / .223 Remington) as specified.
- Be aware of your surroundings and ensure a safe shooting environment.
- Avoid using the magazine in wet or muddy conditions to prevent feeding issues.
- Do not modify or alter the magazine in any way, as this may affect its performance and safety.

Instructions for Installation and Usage

Follow these steps for the proper installation and usage of the PMAG® 30 GEN M3 Window:

1. Loading the Magazine:

- Hold the magazine firmly in one hand.
- Insert rounds into the magazine, ensuring they are seated properly.
- Do not exceed the maximum capacity of 30 rounds.

2. Installing the Magazine:

- Align the magazine with the magazine well of the firearm.
- Push the magazine firmly into the magazine well until it clicks into place.

3. Using the Magazine:

- Ensure the firearm is pointed in a safe direction.
- Engage the safety mechanism of the firearm before loading.
- Fire the firearm according to the manufacturer's instructions.

4. Removing the Magazine:

- Ensure the firearm is unloaded and pointed in a safe direction.

- Press the magazine release button and pull the magazine out of the magazine well.

5. Cleaning and Maintenance:

- Disassemble the magazine using the toolless disassembly feature.
- Clean the magazine body and follower with a damp cloth.
- Ensure all parts are dry before reassembling the magazine.

Disposal Instructions

When disposing of the PMAG® 30 GEN M3 Window, please follow these instructions:

- Dispose of the magazine in accordance with local waste disposal regulations.
- If the magazine is damaged, ensure it is disposed of safely to prevent injury.
- Do not incinerate the magazine, as it may release harmful substances.

Contact Information for Further Support

For any safety inquiries or concerns regarding the PMAG® 30 GEN M3 Window, please refer to the contact information provided by the manufacturer or your retailer.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of the PMAG® 30 GEN M3 Window. Always prioritize safety and compliance with local laws while handling and using your magazine. Thank you for your attention to these important safety guidelines.
