## Super-Durable & Ultra-Dependable PMAG Refined & Battle-Hardened By Combat Experience

The next-generation PMAG 30 GEN M3 Window is a 30-round 5.56x45 NATO (.223 Remington) polymer magazine for AR15/M4 compatible weapons that features transparent windows to allow rapid visual identification of approximate number of rounds remaining. Along with expanded feature set and compatibility, the GEN M3 Window incorporates new material technology and manufacturing processes for enhanced strength, durability, and reliability to exceed rigorous military performance specifications. While the GEN M3 is optimized for Colt-spec AR15/M4 platforms, modified internal and external geometry also permits operation with a range of additional weapons such as the HK® 416/MR556A1/M27 IAR, British SA-80, FN® SCAR MK 16/16S, and others. Similar to the MOE® PMAG, the GEN M3 Window features a long-life USGI-spec stainless steel spring, four-way anti-tilt follower and constant-curve internal geometry for reliable feeding, and simple tool-less disassembly to ease cleaning. In addition, a redesigned bolt catch notch in the rear of the magazine provides increased bolt catch clearance, while an over-travel stop on the spine helps ensure the magazine will not over-insert on compatible weapons. Low profile ribs and new aggressive front and rear texture gives positive control of the GEN M3 in all environments, and a paint pen dot matrix has been added to the bottom panel of the body to allow easy marking by the end user for identification. The new, easy to disassemble flared floorplate aids extraction and handling of the magazine while providing improved drop protection, but is slightly slimmer than before for better compatibility with tight double and triple magazine pouches. Durable dual-side transparent windows allow for quick determination of approximate number of rounds remaining in the magazine. Utilizing a high visibility indicator coil on the spring and numerical markers on the magazine body, the MagLevel® system provides positive verification without affecting the durability or reliability of the magazine. FEATURES 30-round reliability and no stoppages Anti-glare translucent MagLevel windows on both sides of the body along with a painted indicator on the spring allows for easy determination of rounds remaining from 1 to 30 Next-generation impact and crush-resistant polymer construction Modified dimensions allow for wider compatibility with non Colt-spec 'STANAG 4179' platforms The anti-tilt, self-lubricating follower ensures a smooth feed and magazine reliability Constant-curve internal geometry, over-travel insertion stop on the spine, and a long-life stainless steel spring ensure smooth feeding Paint pen dot matrix panels on the bottom of the body to allow for identification marking Its ribbed gripping surface and aggressive front and rear texture provide positive magazine handling Improved slimmer floorplate aids magazine handling and disassembly and is slim enough for use with many double and triple pouches Made in the USA. SPECS Caliber: 5.56x45mm / .223 Remington Platform: AR15, M4, M16, SA-80 Capacity: 30 Rounds Weight: 5 oz. Length, max: 7.5 in. Compatibility: Wide compatibility with most 'STANAG 4179' platforms such as the AR15, M4, M16, SCAR MK16/16S, HK416, MR556, M27 IAR, IWI Tavor, and others NOTE: DOES NOT INCLUDE DUST COVER

# PMAG 30 GEN M3 Window Safety Instruction Guide

## Introduction

Thank you for choosing the PMAG 30 GEN M3 Window 5.56 NATO Rifle Magazine. This guide provides essential safety instructions to ensure the safe use, handling, and disposal of the product. Please read this guide carefully before using the magazine to understand the safety precautions and instructions for proper use.

## General Safety Guidelines

- Always treat every magazine as if it is loaded.
- Keep the magazine out of reach of children and unauthorized users.
- Inspect the magazine for any damage before use. Do not use if damaged.
- Store the magazine in a cool, dry place away from direct sunlight.
- Do not attempt to modify or disassemble any part of the magazine beyond the intended disassembly instructions.
- Ensure that the magazine is compatible with your firearm model before use.
- Follow all local laws and regulations regarding the use and storage of firearm magazines.

## Specific Safety Precautions for Use

- **Compatibility:** Ensure that the PMAG 30 GEN M3 Window is used only with AR15/M4 compatible firearms and other specified models. Using it with incompatible firearms may result in malfunction or injury.
- **Loading:** Always load the magazine in a safe environment. Avoid pointing the magazine at yourself or others while loading.
- **Handling:** When handling the magazine, keep your fingers away from the magazine well and the trigger area of the firearm.
- **Transport:** When transporting the magazine, ensure it is unloaded and stored securely to prevent accidental discharge.
- **Cleaning:** Clean the magazine regularly to maintain its performance. Follow the cleaning instructions provided in this guide.

## Instructions for Installation and Usage

### 1. Loading the Magazine:

- Place the magazine on a flat surface.
- Ensure the follower is in the correct position.
- Insert rounds into the magazine one at a time, ensuring they are seated properly.

### 2. Inserting the Magazine into the Firearm:

- Ensure the firearm is pointed in a safe direction.
- Align the magazine with the magazine well of the firearm.
- Push the magazine firmly into the magazine well until it clicks into place.

### 3. Removing the Magazine:

- Ensure the firearm is pointed in a safe direction.
- Press the magazine release button on the firearm.
- Pull the magazine straight out of the magazine well.

#### **4. Disassembly for Cleaning:**

- Ensure the magazine is unloaded.
- Press the floorplate release and remove the floorplate.
- Remove the follower and spring for cleaning.
- Clean all components with a soft cloth and ensure they are dry before reassembly.

## **Disposal Instructions**

- Dispose of the magazine in accordance with local regulations regarding plastic waste and firearm accessories.
- Do not dispose of the magazine in regular household waste.
- If the magazine is damaged or no longer usable, contact your local waste management facility for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the PMAG 30 GEN M3 Window, please refer to the manufacturer's website or customer support for assistance. It is important to have access to reliable support for any issues related to safety and product performance.

## **Conclusion**

By following these safety instructions, you can ensure the safe and effective use of the PMAG 30 GEN M3 Window 5.56 NATO Rifle Magazine. Always prioritize safety and be aware of your surroundings when handling firearms and magazines. Thank you for your attention to these important guidelines.
