

WILSON CASE GAGE - L.E. WILSON 22 CREEDMOOR CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

L.E. WILSON CASE GAGES The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper headspace, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder. SPECS Contents: Gage & instructions a cardboard box. OAL: 2.494" ID: Large end: .473". small end: .347" OD: .991" Color: Silver with knurling in the middle.

WILSON CASE GAGE Safety Instructions

Introduction

Thank you for choosing the WILSON CASE GAGE L.E. WILSON 22 CREEDMOOR CASE GAGE. This product is designed to assist you in achieving precise measurements for your cartridge cases. Please read and follow these safety instructions carefully to ensure safe and effective use.

General Safety Guidelines

- Always ensure the product is used in accordance with the manufacturer's instructions.
- Keep the gage out of reach of children and vulnerable individuals to prevent accidents.
- Inspect the gage before each use for any signs of damage or wear.
- If you notice any defects, do not use the gage and contact the manufacturer for further guidance.
- Store the gage in a dry and safe location to prevent damage.

Specific Safety Precautions for Use

- Use the gage only for its intended purpose, which is measuring cartridge cases.
- Avoid applying excessive force when using the gage to prevent damage to the tool and ensure accurate measurements.
- Always wear appropriate safety gear, such as safety glasses, when performing reloading tasks.
- Do not use the gage with cases that are excessively damaged or deformed.
- Be aware of the potential for sharp edges on the gage; handle with care to prevent cuts.

Instructions for Installation and Usage

1. Setting Up the Gage:

- Ensure that your workspace is clean and welllit.
- Remove the gage from its packaging and inspect it for any damage.
- Familiarize yourself with the parts of the gage: the large end, small end, and overall length measurement.

2. Using the Gage:

- Place the cartridge case into the large end of the gage to check for overall length.
- If the case is longer than the specified length, it may need to be trimmed.
- Measure the datum to head length by inserting the case into the small end of the gage.
- Check to ensure the headspace is correct to prevent oversizing.

3. PostUse Care:

- Clean the gage after each use to maintain accuracy and prolong its life.
- Store the gage in its cardboard box to protect it from damage.

Disposal Instructions

- Dispose of the gage in accordance with local regulations.
- If the gage is no longer usable, consider recycling materials where applicable.
- Do not dispose of the gage in general waste if it contains any hazardous materials.

Contact Information for Further Support

For any inquiries regarding safety or usage of the WILSON CASE GAGE, please refer to the manufacturer's contact details provided in the product packaging or visit their official website.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with the WILSON CASE GAGE L.E. WILSON 22 CREEDMOOR CASE GAGE. Always prioritize safety and consult the manufacturer for any concerns. Thank you for your attention to these important guidelines.
