

WILSON CASE GAGE - L.E. WILSON 280 ACKLEY CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

L.E. WILSON CASE GAGES The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper headspace, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder. SPECS Contents: Gage & instructions a cardboard box. OAL: 2.494" ID: Large end: .473". small end: .347" OD: .991" Color: Silver with knurling in the middle.

WILSON CASE GAGE L.E. WILSON 280 ACKLEY CASE GAGE Safety Instruction Guide

Introduction

Thank you for choosing the WILSON CASE GAGE L.E. WILSON 280 ACKLEY CASE GAGE. This product is designed to help you accurately measure headspace and overall length of cartridge cases. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Ensure the product is used in accordance with the instructions provided.
- Always handle the gage with care to prevent damage.
- Keep the gage out of reach of children and vulnerable individuals.
- Regularly inspect the gage for signs of wear or damage before each use.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the gage only for its intended purpose: measuring cartridge case dimensions.
- Do not exceed the recommended specifications as outlined in the product description.
- Avoid using the gage in wet or damp conditions to prevent rust or corrosion.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses when using the gage.
- Ensure that your workspace is clean and free from obstructions to avoid accidents.

Instructions for Installation and Usage

1. Setting Up the Gage:

- Remove the gage from its packaging and inspect it for any damage.
- Ensure that you have a clean, flat surface to work on.

2. Measuring Headspace:

- Insert the cartridge case into the gage.
- Use a caliper to measure the headspace accurately.
- Check that the case fits snugly without excessive force.

3. Checking Overall Length:

- Place the cartridge case into the gage to check its overall length.
- If the overall length exceeds the specified limit, trim the case as necessary.

4. Adjustable Style Usage:

- For belted magnum cases, ensure that the belt is properly aligned within the gage.
- Minimize resizing at the shoulder to prolong the life of the case.

5. PostUse Care:

- Clean the gage after each use to remove any debris or residue.
- Store the gage in its original cardboard box to protect it from damage.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the gage in regular household waste if it is damaged or can no longer be used.
- Check local guidelines for the proper disposal of metal products.

Contact Information for Further Support

For any questions or concerns regarding the WILSON CASE GAGE L.E. WILSON 280 ACKLEY CASE GAGE, please refer to the contact information provided by the manufacturer or your retailer.

By following this safety instruction guide, you can ensure safe and effective use of the WILSON CASE GAGE L.E. WILSON 280 ACKLEY CASE GAGE. Thank you for your attention to these important safety guidelines.
