# Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Dies

## Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Dies for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read and follow all instructions carefully to minimize risks and enhance your reloading experience.

## General Safety Guidelines

- Always ensure that you are using the product in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Do not use the product if it appears damaged or malfunctioning.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling reloading components.
- Store the dies in a dry, cool place away from direct sunlight to prevent deterioration.
- Regularly check for updates on product recalls and safety notices through the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Before using the Micrometer Top Bullet Seater Die, ensure that your Arbor Press is compatible and in good working condition.
- Always verify that the die is properly secured to the press before operation.
- Avoid overtightening the die, as this may cause damage or affect performance.
- When adjusting the seating depth, make small incremental changes to avoid overseating the bullet.
- Do not attempt to modify the die or use it for purposes other than intended.
- Always perform a test seating with a dummy round before loading live ammunition to ensure proper functionality.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the Arbor Press is on a stable surface and securely mounted.
- Remove any existing dies from the Arbor Press.
- Carefully screw the L.E. Wilson Micrometer Top Bullet Seater Die into the Arbor Press until it is snug. Do not overtighten.
- Adjust the micrometer top to the desired seating depth using the scale in 0.001" increments.

### 2. Usage:

- Place a cartridge case in the Arbor Press and insert the bullet into the case mouth.
- Slowly engage the press to seat the bullet to the desired depth.
- After seating, check the overall length of the cartridge to ensure it meets your specifications.
- Repeat the process for additional cartridges, making adjustments as necessary.

## Disposal Instructions

- Dispose of any spent components, including used bullets and cartridge cases, in accordance with local regulations.
- Do not dispose of hazardous materials in regular trash. Check with local authorities for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the L.E. Wilson Micrometer Top Bullet Seater Dies, please consult the product documentation or reach out to your point of purchase for assistance.

Thank you for prioritizing safety while enjoying your reloading activities.
