# Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Dies

## Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Dies. This product is designed to provide reloaders with a reliable tool for achieving accurate bulletseating depths. To ensure safe and effective use of this product, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Be aware of your surroundings and ensure that your workspace is clear of distractions and hazards.
- Regularly inspect the product for any signs of damage or wear before use.
- Do not use the product if it is damaged or malfunctioning.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Potential hazards include improper bullet seating, which can lead to dangerous ammunition.
  - Ensure that all components are compatible with the 33 XC cartridge to avoid malfunctions.
- **Avoiding Hazards:**
  - Always verify the correct bulletseating depth before using the product.
  - Do not exceed the recommended adjustments specified in the product manual.
  - Use the product only with an Arbor Press as intended; do not attempt to use it with other types of presses.
- **Age Specific Warnings:**
  - This product is intended for use by adults only. Keep it away from children and inexperienced users.

## Instructions for Installation and Usage

- **Installation:**
  1. Ensure that your Arbor Press is set up on a stable work surface.
  2. Attach the L.E. Wilson Micrometer Top Bullet Seater Die to the Arbor Press according to the manufacturer's guidelines.
  3. Ensure that the die is securely fastened and properly aligned.
- **Usage:**
  1. Select the appropriate bullet for the 33 XC cartridge.
  2. Adjust the micrometer top to the desired bulletseating depth using the scale in 0.001" increments.
  3. Place the bullet into the die and operate the Arbor Press to seat the bullet.
  4. Check the seating depth after each adjustment to ensure accuracy.
  5. If testing seating depth at the range, ensure that the die and press are transported safely.

## Disposal Instructions

- Dispose of the product and any associated materials in accordance with local regulations.
- Do not dispose of the product in household waste. Check for recycling options in your area.

## **Contact Information for Further Support**

For any questions or concerns regarding the L.E. Wilson Micrometer Top Bullet Seater Dies, please refer to the manufacturer's website or customer support channels for assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with the L.E. Wilson Micrometer Top Bullet Seater Dies. Thank you for your attention to safety.
