Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Dies

Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Dies for your reloading needs. This tool is designed to provide accurate bulletseating depths, ensuring a reliable and efficient reloading process. To guarantee your safety and the effective use of this product, please read and follow the instructions outlined in this guide carefully.

General Safety Guidelines

- Always handle reloading tools with care to prevent accidents.
- Ensure that you are familiar with the operation and safety features of the tool.
- Keep the product out of reach of children and vulnerable individuals.
- Use the tool only for its intended purpose as specified in the product description.
- Regularly inspect the tool for any signs of wear or damage before use.
- Maintain a clean and organized workspace to avoid distractions and accidents.

Specific Safety Precautions for Use

- Before using the Micrometer Top Bullet Seater Die, read the user manual thoroughly.
- Always wear appropriate safety gear, including safety glasses and gloves, when reloading.
- Ensure that the Arbor Press is securely mounted and stable before use.
- Do not exceed the recommended bullet seating depths as indicated in the product specifications.
- Avoid placing your hands or any body parts near moving parts during operation.
- Disconnect the Arbor Press from power if applicable when making adjustments to the die.
- Never attempt to modify or alter the die in any way.

Instructions for Installation and Usage

1. Installation:

- Securely attach the Micrometer Top Bullet Seater Die to your Arbor Press.
- Ensure that the die is properly aligned and tightened to prevent movement during use.
- Check that the micrometer top is functioning correctly and is set to zero.

2. Usage:

- Prepare your bullet and casing according to standard reloading procedures.
- Insert the bullet into the die and adjust the micrometer top to the desired seating depth.
- Slowly operate the Arbor Press to seat the bullet into the casing.
- After seating, remove the completed round and check for proper bullet depth using a caliper.
- Repeat the process for additional rounds, making adjustments as necessary.

Disposal Instructions

- Dispose of any damaged or wornout components in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling any metal components where possible.

Contact Information for Further Support

For any questions or concerns regarding the use of the L.E. Wilson Micrometer Top Bullet Seater Dies, please consult the product's official website or your retailer for further assistance.

By following these guidelines, you can ensure a safe and effective reloading experience with your L.E. Wilson Micrometer Top Bullet Seater Dies. Thank you for prioritizing safety and responsibility in your reloading practices.
