# L.E. Wilson Micrometer Top Bullet Seater Dies

## Safety Instruction Guide

### Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Dies for your reloading needs. This product is designed to provide accurate bulletseating depths, ensuring optimal performance of your ammunition. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

### General Safety Guidelines

- Always handle reloading tools with care and respect.
- Ensure that you are familiar with the operation of this product before use.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage. If any damage is observed, do not use the product.
- Use the product only for its intended purpose as specified in this guide.

### Specific Safety Precautions for Use

- Ensure that you are using the correct cartridge type (8.6 Blackout) for this die.
- Always work in a wellventilated area to avoid inhaling any dust or fumes.
- Wear appropriate safety gear, including safety glasses and hearing protection, when reloading.
- Do not exceed the recommended load specifications for your ammunition.
- Avoid distractions while reloading to maintain focus and accuracy.
- If you experience any difficulty or malfunction, stop using the product immediately and consult the troubleshooting section of the manual or seek professional assistance.

### Instructions for Installation and Usage

#### 1. Setup:

- Ensure that the Arbor Press is securely mounted and stable.
- Attach the L.E. Wilson Micrometer Top Bullet Seater Die to the Arbor Press according to the manufacturer's instructions.

#### 2. Adjustments:

- Use the micrometer top to make fine adjustments in 0.001" increments for precise bulletseating depth.
- Make major adjustments using the threaded cap for larger changes.

#### 3. Loading Bullets:

- Place the bullet into the die and ensure it is properly aligned.
- Slowly operate the Arbor Press to seat the bullet to the desired depth.
- Check the seating depth with a caliper for accuracy.

#### 4. Testing:

- After loading, take your completed rounds to the range for testing.
- If adjustments are needed, repeat the loading process as necessary.

## **Disposal Instructions**

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for proper recycling options in your area.

## **Contact Information for Further Support**

For any safety inquiries or product support, please consult the manufacturer's website or contact your retailer. Ensure you have your product details and purchase information ready for a more efficient response.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective reloading experience with the L.E. Wilson Micrometer Top Bullet Seater Dies. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these guidelines.
