

# SINCLAIR LOADING BLOCK (25 ROUNDS) - SINCLAIR INTERNATIONAL 0.535" DIAMETER 25 ROUND LOADING BLOCK

[Reloading](#) > [Case Preparation](#) > [Loading Blocks](#)

These 25 round blocks are half-size blocks that are excellent for small batches of cases. These blocks are also commonly used on the shooting bench to hold loaded rounds or fired cases. blocks are machined from solid white polyethylene providing the reloader with a very durable, easy to clean loading block. Each block is machined to fit the specific cases you reload and has finger grooves machined into the sides to provide a sure grip. Each hole has a slight chamfer for easy case head entry. The "Poly" blocks are dishwasher safe for easy cleaning. We use white polyethylene because spilled powder shows up easily. These blocks are 3/4" thick to provide deeper holes for your cases to sit in, great for short to medium length cartridges. 749-000-742 only has 16 round capacity due to case head diameter.

## Attributes

- Name: [SINCLAIR INTERNATIONAL 0.535" DIAMETER 25 ROUND LOADING BLOCK](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)

# Safety Instructions for Sinclair Loading Block (25 Rounds)

## Introduction

Thank you for choosing the Sinclair Loading Block (25 Rounds) from Sinclair International. This loading block is designed to enhance your reloading experience by providing a durable and efficient solution for organizing your ammunition. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always handle ammunition and reloading equipment with care.
- Keep the loading block out of reach of children and vulnerable individuals.
- Regularly inspect the loading block for any signs of wear or damage.
- Ensure that the loading block is used in a well-ventilated area.
- Follow all local laws and regulations regarding ammunition and reloading.

## Specific Safety Precautions for Use

- Do not overload the loading block beyond its designed capacity of 25 rounds.
- Always ensure that the ammunition is compatible with the loading block specifications.
- Avoid using the loading block in wet or damp conditions to prevent slippage.
- Do not use the loading block for any purpose other than its intended use.
- Be cautious when handling loaded rounds; always treat them as if they are live ammunition.

## Instructions for Installation and Usage

1. **Placement:** Place the loading block on a stable, flat surface to ensure it does not tip over during use.
2. **Loading:**
  - Insert the rounds into the holes of the loading block, ensuring that they fit snugly.
  - Each hole is designed to accommodate specific case sizes; make sure to use the correct ammunition.
3. **Handling:**
  - Use the finger grooves on the sides of the block for a secure grip when moving or adjusting the block.
  - Avoid stacking the loading block with other items to prevent accidental spills or damage.
4. **Cleaning:**
  - After use, clean the loading block with mild soap and water or place it in the dishwasher for easy cleaning.
  - Ensure the block is completely dry before storing it to prevent mold or mildew.

## Disposal Instructions

- Dispose of the loading block in accordance with local regulations regarding plastic waste.
- If the loading block is damaged beyond repair, ensure it is recycled or disposed of in an environmentally friendly manner.

## Contact Information for Further Support

For any safety inquiries or concerns regarding the Sinclair Loading Block, please refer to the manufacturer's contact information provided with your product packaging or visit their official website for assistance.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective reloading experience with your Sinclair Loading Block. Always prioritize safety and compliance with local regulations when handling ammunition and reloading equipment. Thank you for your attention to these important guidelines.
