

SINCLAIR STAINLESS STEEL PILOTS - SINCLAIR INTERNATIONAL PILOT STOP, STAINLESS STEEL, 375 CALIBER

[Reloading](#) > [Case Preparation](#) > [Flash Hole Tool Pilots](#)

We manufacture pilots for our flash hole tool and our Neck Thickness/Variance Gauge. Our pilots are precision machined from stainless steel on CNC turning centers to properly fit new, unfired case necks. Available for rifle and pistol cartridges from 22 thru 45 caliber. Not for use on .50 BMG. 50 BMG flash hole diameter is larger.

Safety Instruction Guide for SINCLAIR Stainless Steel Pilots

Introduction

Thank you for choosing the SINCLAIR Stainless Steel Pilots. This guide provides essential safety information and instructions to ensure safe and effective use of the product. Please read this document carefully before using the pilots.

General Safety Guidelines

- Ensure that you are familiar with the flash hole tool and its components before using the pilots.
- Always inspect the pilots for any signs of damage or wear before use.
- Keep the pilots out of reach of children and vulnerable individuals.
- Only use the pilots for their intended purpose as specified in this guide.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay updated on product recalls and safety notices through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use the pilots only with new, unfired case necks to ensure proper fit and safety.
- Do not use the pilots on .50 BMG cases, as the flash hole diameter is larger and may cause safety hazards.
- Wear appropriate personal protective equipment (PPE), such as safety glasses, when using the flash hole tool with the pilots.
- Ensure that the work area is clean and free from any obstructions before starting your task.
- Do not exceed the recommended caliber specifications when using the pilots.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and materials, including the flash hole tool, the SINCLAIR Stainless Steel Pilots, and any PPE.
- Ensure that the work area is welllit and organized.

2. Installing the Pilot

- Select the appropriate pilot for your specific caliber (375 Caliber).
- Insert the pilot into the flash hole tool according to the manufacturer's instructions.
- Ensure that the pilot is securely attached and properly aligned before use.

3. Using the Pilot

- Carefully position the flash hole tool with the installed pilot over the case neck.
- Apply even pressure to ensure proper engagement without forcing the tool.
- After use, remove the pilot from the tool and inspect it for any signs of damage.

4. PostUsage Care

- Clean the pilots and the flash hole tool after each use to maintain their condition.
- Store the pilots in a safe and dry location, away from direct sunlight and moisture.

Disposal Instructions

- Dispose of any damaged or worn pilots according to local regulations for metal recycling.
- Ensure that all components are disposed of safely to prevent environmental harm.

Contact Information for Further Support

For any questions or concerns regarding the SINCLAIR Stainless Steel Pilots, please refer to the manufacturer's contact information provided with your product packaging. You can also check the EU's Safety Gate platform for additional safety information and updates.

Thank you for following these safety guidelines. Your safety and satisfaction are our top priorities.
