

# SINCLAIR POLY LOADING BLOCK - 50 ROUND - SINCLAIR INTERNATIONAL 38 SUPER/218 BEE POLY LOADING BLOCK 50 ROUND

[Reloading](#) > [Case Preparation](#) > [Loading Blocks](#)

These blocks are machined from solid white polyethylene providing the reloader with a very durable, easy to clean loading block. Each block is machined to fit the specific cases you reload and has finger grooves machined into the sides to provide a sure grip. Each hole has a slight chamfer for easy case head entry. The "Poly" blocks are dishwasher safe for easy cleaning. We use white polyethylene because spilled powder shows up easily. These 50 round blocks are 3/4" thick to provide deeper holes for your cases to sit in, great for short to medium length cartridges. The #749-001-313 block only has 32 holes due to the case head size.

## Attributes

- Name: [SINCLAIR INTERNATIONAL 38 SUPER/218 BEE POLY LOADING BLOCK 50 ROUND](#)

# Safety Instruction Guide for SINCLAIR POLY LOADING BLOCK 50 ROUND

## Introduction

Thank you for choosing the SINCLAIR POLY LOADING BLOCK 50 ROUND. This loading block is designed to enhance your reloading experience by providing a durable and easy-to-clean solution for organizing your cartridges. This guide contains important safety instructions and usage guidelines to ensure safe handling and operation of this product.

## General Safety Guidelines

- Always read and understand all instructions before using the loading block.
- Ensure the loading block is used in a safe environment, free from distractions and hazards.
- Inspect the loading block for any damage before use. Do not use if damaged.
- Keep the loading block out of reach of children and vulnerable individuals.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls or safety alerts via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the loading block is used only with the specified cartridges: 38 Super Auto, 218 Bee, and 2520 Winchester.
- Do not overload the loading block beyond its intended capacity of 50 rounds.
- Use caution when handling reloaded ammunition. Always follow proper reloading practices.
- Avoid using the loading block in wet or damp conditions to prevent slippage.
- When cleaning, ensure the loading block is completely dry before storing or using it again.
- Do not use abrasive cleaners or tools that may scratch or damage the surface of the loading block.

## Instructions for Installation and Usage

- Place the loading block on a stable, flat surface to ensure it remains secure during use.
- Load the cartridges into the designated holes, ensuring they fit securely and are oriented correctly for safe handling.
- Use the finger grooves on the sides of the block to maintain a firm grip while loading and unloading cartridges.
- If necessary, use a soft cloth to wipe any spilled powder from the surface of the loading block.
- After reloading, store the block in a cool, dry place away from direct sunlight.

## Disposal Instructions

- Dispose of the loading block responsibly when it reaches the end of its useful life.
- Check local regulations for proper disposal methods for polyethylene products.
- If the loading block is damaged, consider recycling it according to local recycling guidelines.

## Contact Information for Further Support

For any inquiries regarding safety or usage of the SINCLAIR POLY LOADING BLOCK, please consult your retailer or visit the official Sinclair International website for more information.

Thank you for your attention to these safety guidelines. Enjoy your reloading experience with the SINCLAIR POLY LOADING BLOCK 50 ROUND.
