

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.362

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.362](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001983
- Mfr. No.: 73362
- Diameter (in): .362
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733628

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.362

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.362. This guide provides important safety information and instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the bushings.

## General Safety Guidelines

- Ensure that the product is used in accordance with these safety guidelines to minimize risk.
- Always inspect the bushings for any signs of damage or wear before use.
- Keep the bushings out of reach of children and vulnerable individuals to prevent accidental injury.
- Follow all local regulations and guidelines regarding the use of tools and equipment.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Use protective eyewear when handling and installing the bushings to prevent eye injuries.
- Wear appropriate gloves to protect your hands from sharp edges and potential injuries.
- Ensure that the workspace is clean and free from clutter to avoid accidents.
- Do not exceed the recommended sizing diameters as specified in the product documentation.
- Avoid using the bushings for any purpose other than what they are designed for.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools and safety equipment before starting.
- Ensure that the work area is welllit and ventilated.

### 2. Installation

- Select the correct bushing size based on the last three digits of the part number (#RD73XXX).
- Insert the bushing into the appropriate tool or equipment, ensuring a snug fit.
- Tighten any fasteners or clamps as needed to secure the bushing in place.

### 3. Usage

- Use the bushing in accordance with the manufacturer's specifications.
- Monitor the bushing during use for any signs of excessive wear or damage.
- If any issues are detected, stop using the bushing immediately and inspect it further.

### 4. PostUsage

- Clean the bushing after each use to remove debris and contaminants.
- Store the bushings in a dry, safe location away from children and pets.

## **Disposal Instructions**

- Dispose of the bushings in accordance with local regulations regarding metal and industrial waste.
- Do not dispose of the bushings in regular household waste.
- Consider recycling options where available to minimize environmental impact.

## **Contact Information for Further Support**

For any safety inquiries or additional support, please refer to the manufacturer's contact information provided with the product packaging or documentation.

By following the guidelines and instructions outlined in this document, you can ensure the safe and effective use of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.362. Thank you for your attention to safety!
