

# NECK TURNING CASEHOLDERS - NECK TURNING CASE HOLDER, #1, 223 FAMILY

[Reloading](#) > [Case Preparation](#) > [Neck Turning](#) > [Neck Turning Accessories](#)

The Sinclair Driver and Caseholder system is designed to hold and turn your case while you are neck turning, cleaning case necks or case mouth deburring. The caseholders and driver are machined from stainless steel, and the driver has a ¼" hex shaft for use in power screwdrivers or low speed drill motors. The driver is universal to the Sinclair system and will work with all the caseholders. Our Universal Caseholder enables you to use this system with our Sinclair Stainless Shell Holders listed on page 29. Select the appropriate shell holders for your favorite cartridges.. The Universal Caseholder works with the same #05-200 driver as our original caseholders, and it is available as a "kit" with the Driver and Universal Caseholder or individually for those who already have a driver. Remember to order the Sinclair Stainless Shell Holders for your Universal Caseholder if you don't already have them. This system is a great, inexpensive way to speed up the neck turning process. Also works great for many other case prep operations.\*\*NOTE: When ordering case holders, you will need to order a case holder driver as they are sold separately.\*\*

## Attributes

- Name: [NECK TURNING CASE HOLDER, #1, 223 FAMILY](#)

# Safety Instruction Guide for NECK TURNING CASEHOLDERS

## Introduction

Thank you for purchasing the NECK TURNING CASEHOLDERS NECK TURNING CASE HOLDER, #1, 223 FAMILY. This product is designed for safely holding and turning cases while performing neck turning, cleaning case necks, or case mouth deburring. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always inspect the product before use to ensure it is in good condition and free from defects.
- Keep the product out of reach of children and vulnerable individuals to prevent accidental injury.
- Use the product only for its intended purpose as described in the product specifications.
- Be aware of your surroundings and ensure that the work area is clear of obstructions and hazards.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the caseholder.
- Ensure that the driver is securely attached to the caseholder before use to prevent accidents.
- Do not exceed the recommended speed when using power screwdrivers or drill motors with the caseholder.
- Avoid using excessive force when turning the case, as this may damage the product or cause injury.
- Keep hands and other body parts away from moving parts during operation.
- If the product becomes damaged or malfunctioning, discontinue use immediately and seek assistance.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary materials, including the NECK TURNING CASEHOLDER, the driver, and the appropriate Sinclair Stainless Shell Holders.
- Ensure your workspace is clean and free from clutter.

### 2. Installation

- Attach the Sinclair Driver to the caseholder by inserting the ¼" hex shaft into the designated slot.
- Ensure that the driver is securely fastened to the caseholder.

### 3. Using the Caseholder

- Select the appropriate Sinclair Stainless Shell Holder for your cartridge.
- Insert the cartridge into the shell holder and ensure a snug fit.
- Begin the neck turning process by activating the driver at a low speed.
- Gradually increase speed as needed, ensuring that you maintain control of the caseholder.

### 4. PostUse Care

- After use, clean the caseholder and driver to remove any debris or residue.

- Store the product in a dry, safe place, away from children and pets.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations regarding metal and plastic waste.
- Do not dispose of the product in regular household waste. Instead, consider recycling options.

## **Contact Information for Further Support**

For further assistance or inquiries regarding safety and usage, please refer to the manufacturer's contact details provided in the product packaging or user manual.
