

LOCK-N-LOAD™ HEADSPACE GAUGE TOOL - LOCK-N-LOAD HEADSPACE KIT WITHOUT BODY

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

This affordable headspace gauge set from Hornady Lock-N-Load Products (formerly Stoney Point) allows the handloader to measure changes to the headspace of cartridges with a dial/digital caliper. Different bushing sizes (depending on cartridge family) insert into the Hornady Lock-N-Load Comparator Body, which attaches to a caliper. This handloader can then measure the changes between fired and sized brass. this enables the handloader to adjust his sizing dies for a proper fit in his chamber. When a handloader oversizes his cases it can cause excessive headspace problems, one of which is to shorten the life of the brass. The Hornady Lock-N-Load Headspace Gauge Set will allow the user to measure brass from the case head to the datum line on the case shoulder. Five bushing sizes allow you to measure the headspace on most bottleneck cartridges from 17 Remington through the belted magnums. The bushings are sold either with the Comparator Body or without the Comparator Body (for those who already have one). View Hornady Gauge Bushing Chart.

Attributes

- Name: [LOCK-N-LOAD HEADSPACE KIT WITHOUT BODY](#)
- Manufacturer: [HORNADY](#)
- Product no.: 749004278
- Mfr. No.: HK55

LOCKNLOAD™ HEADSPACE GAUGE TOOL USER SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the LOCKNLOAD™ Headspace Gauge Tool. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this guide thoroughly before using the tool.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Always inspect the tool for damage before use. Do not use a damaged tool.
- Follow all local laws and regulations regarding the use of reloading tools and equipment.
- Report any unsafe products or accidents to the appropriate authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use the LOCKNLOAD™ Headspace Gauge Tool only with compatible cartridges.
- Avoid wearing loose clothing or accessories that may interfere with the tool during use.
- Always work in a welllit area to ensure visibility of measurements.
- Do not attempt to modify or alter the tool in any way.
- When measuring, ensure that your hands are dry and free from any substances that may affect grip or measurement accuracy.
- Be cautious when handling fired brass, as it may have sharp edges or residues.

Instructions for Installation and Usage

1. Preparation:

- Gather your LOCKNLOAD™ Headspace Gauge Tool, dial/digital caliper, and compatible bushing sizes.
- Ensure your workspace is clean and organized.

2. Installing the Bushing:

- Select the appropriate bushing size for your cartridge family.
- Insert the bushing into the Hornady LockNLoad Comparator Body.
- Attach the Comparator Body to your dial/digital caliper securely.

3. Measuring Headspace:

- Take a fired case and place it in the bushing.
- Adjust the caliper to measure from the case head to the datum line on the case shoulder.
- Record the measurement for your records.

4. Adjusting Sizing Dies:

- Use the measurements obtained to adjust your sizing dies accordingly.
- Ensure that the adjustments provide a proper fit for your chamber.

5. PostUse Care:

- After use, clean the tool and store it in a safe, dry place.
- Regularly check the tool for any signs of wear or damage.

Disposal Instructions

- Dispose of any damaged or unusable parts in accordance with local waste disposal regulations.
- Recycle materials where possible. Check with your local recycling center for guidelines on recycling metal and plastic components.

Contact Information for Further Support

For any inquiries regarding the LOCKNLOAD™ Headspace Gauge Tool, please refer to the contact information provided by the retailer or manufacturer.

By following these safety instructions, you can ensure a safe and effective experience with your LOCKNLOAD™ Headspace Gauge Tool. Thank you for your attention to safety and compliance.
