

LOCK-N-LOAD AP SHELLPLATE - #12 LOCK-N-LOAD AP PROGRESSIVE PRESS SHELLPLATE

[Reloading](#) > [Shellholders & Shellplates](#)

Shell plates for Lock-N-Load AP and Pro-Jector are available to fit most calibers. Each shell plate will also hold additional calibers with the same case head dimensions. Current shell plates are designed to fit Lock-N-Load AP (both EZ-Ject and wire ejector models) and Pro-Jector presses. These shell plates require the purchase of the 749-012-552 Hornady Auto press retrofit kit if your press still has the OLD STYLE SPRING TYPE CARTRIDGE CASE EJECTOR SYSTEM. If you have any questions please contact your Sinclair tech 800-717-8211. View Hornady Shellplate Chart.

LOCKNLOAD AP SHELLPLATE #12 Safety Instruction Guide

Introduction

Thank you for choosing the LOCKNLOAD AP SHELLPLATE #12. This product is designed for use with the LockNLoad AP and Projector progressive presses. To ensure safe and effective use, please read this safety instruction guide carefully. It includes important information regarding product safety, usage precautions, installation instructions, and disposal guidelines.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose, as specified in this manual.
- Always handle the shell plate with care to prevent injury or damage.
- Keep the shell plate out of reach of children and vulnerable individuals.
- Regularly inspect the shell plate for any signs of wear or damage before use.
- If you notice any defects or malfunctions, discontinue use immediately and consult a qualified technician.
- Always follow local regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- Always use the shell plate with compatible cartridges as specified in the product description.
- Ensure that your press is equipped with the necessary retrofit kit if it has the old style spring type cartridge case ejector system.
- Avoid wearing loose clothing or jewelry that may get caught in the machinery during operation.
- Always ensure that the work area is clean and free of obstructions.
- Do not exceed the recommended load limits for your press and shell plate.
- Use appropriate personal protective equipment (PPE) such as safety glasses when reloading.
- Be aware of your surroundings and ensure that no unauthorized persons are in the vicinity while operating the press.

Instructions for Installation and Usage

1. Installation

- Ensure that your LockNLoad AP or Projector press is turned off and unplugged.
- Remove any existing shell plate from the press.
- Align the new LOCKNLOAD AP SHELLPLATE #12 with the mounting points on the press.
- Secure the shell plate in place according to the manufacturer's instructions.
- If you have the old style spring type cartridge case ejector system, install the 749012552 Hornady Auto press retrofit kit before proceeding.

2. Usage

- Load the appropriate cartridges into the shell plate, ensuring they fit securely.
- Follow the operating instructions for your press to begin reloading.
- Monitor the operation closely for any unusual sounds or movements.
- Once reloading is complete, safely remove the shell plate and store it in a safe location.

Disposal Instructions

- Dispose of the shell plate in accordance with local regulations for electronic and mechanical waste.
- Do not dispose of the shell plate in regular household waste.

- Contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety, product usage, or technical support, please contact your authorized distributor or manufacturer. Ensure that you have the product details and any relevant information ready to assist in addressing your concerns.

By following these guidelines, you can ensure the safe and effective use of the LOCKNLOAD AP SHELLPLATE #12. Stay informed about any updates or recalls related to this product through the EU's Safety Gate platform. Thank you for prioritizing safety in your reloading activities.
