

284 WINCHESTER CUSTOM GRADE FULL LENGTH DIE - 284 WINCHESTER FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Hornady's Custom Grad New Dimension dies are created from select steel that's heat-treated to ensure the durability needed for a lifetime of reloading. Hornady guarantees they'll never wear out or break under normal use. All dies include the popular double-flat Hornady die lock rings installed and a custom plastic box. Hornady dies are grouped in three series for pricing - die construction and quality is equal in each series. Full Length Dies feature Hornady's Zip Spindle, which holds the decap spindle in a lightly threaded collet to make it easy to adjust and center exactly in the die. The decap pins are headed steel, and strong enough to decap crimped military cases. The expander balls are long, smooth, threaded, and elliptical in shape. This reduces or eliminates case neck stretching and keeps expander from pulling loose. Cases may be necked up in these dies without a separate expander.

Attributes

- Name: [284 WINCHESTER FULL LENGTH SIZING DIE](#)

Safety Instruction Guide for 284 Winchester Custom Grade Full Length Die

Introduction

Thank you for choosing the 284 Winchester Custom Grade Full Length Die by Hornady. This guide provides important safety instructions and guidelines to ensure the safe and effective use of this reloading product. Please read this guide carefully before using the die.

General Safety Guidelines

- Ensure safe use of the die by following these guidelines:
 - Always wear appropriate safety gear, including safety glasses and gloves, when reloading ammunition.
 - Keep the work area clean and welllit to avoid accidents.
 - Store the die in a safe place, out of reach of children and pets.
 - Do not use the die for any purpose other than its intended use.
 - Regularly inspect the die for signs of wear or damage.

Specific Safety Precautions for Use

- To avoid potential hazards, please adhere to the following precautions:
 - Always ensure that the die is securely mounted to the reloading press before use.
 - Use only Hornadyapproved components and materials with this die.
 - Do not exceed recommended load specifications when reloading.
 - Be aware of the risk of primer detonation; handle primers and ammunition with care.
 - If you experience any unusual resistance while resizing cases, stop immediately and inspect the die.

Instructions for Installation and Usage

- Follow these steps for proper installation and usage of the die:
 1. **Installation:**
 - Remove the die from its packaging and inspect for any damage.
 - Securely attach the die to your reloading press using the provided lock ring.
 - Ensure that the decap spindle is properly adjusted within the die.
 2. **Usage:**
 - Insert a clean, empty case into the shell holder of the reloading press.
 - Lower the ram to engage the die with the case.
 - Apply consistent pressure to resize the case. If resistance is felt, stop and check for obstructions.
 - Once the resizing is complete, raise the ram and remove the resized case.
 - Repeat the process for additional cases as needed.

Disposal Instructions

- Dispose of the die and any associated materials responsibly:
 - Do not dispose of the die in regular household waste.
 - Check local regulations for proper disposal methods for metal and plastic components.
 - Consider recycling the die if it is no longer usable.

Contact Information for Further Support

- For any safety inquiries or support related to the 284 Winchester Custom Grade Full Length Die, please refer to the manufacturer's contact information provided in the product packaging or visit the official website.

Thank you for your attention to these safety guidelines. Your safety is our priority, and we hope you enjoy using your Hornady die for many successful reloading sessions.
