

# CHAMBER TYPE BULLET SEATER DIES - 7MM WSM BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

## Attributes

# Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES 7MM WSM

## Introduction

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES 7MM WSM. This product is designed to provide precision bullet seating for benchrest shooters. To ensure your safety and the proper use of this product, please read this guide carefully.

## General Safety Guidelines

- Always handle the bullet seater with care and follow the manufacturer's instructions.
- Ensure that the workspace is clean and free from distractions while using the product.
- Store the bullet seater in a safe place, out of reach of children and pets.
- Regularly inspect the bullet seater for any signs of wear or damage before use.
- Follow all local laws and regulations regarding the use and storage of reloading equipment.

## Specific Safety Precautions for Use

- Use only the recommended cartridge type (7 mm WSM) with this bullet seater.
- Ensure that the die is properly installed in the reloading press before use.
- Never attempt to modify or alter the die or its components.
- Always wear appropriate safety gear, including eye protection, when using this product.
- Avoid placing hands near the die during operation to prevent injury.
- Do not exceed recommended bullet seating depths to avoid overpressure situations.

## Instructions for Installation and Usage

### 1. Installation

- Ensure that your reloading press is securely mounted.
- Remove any existing die from the press.
- Carefully screw the CHAMBER TYPE BULLET SEATER DIES 7MM WSM into the press until it is snug. Do not overtighten.
- Insert the closefitting seating stem into the die.

### 2. Usage

- Prepare your cartridge cases and bullets according to standard reloading practices.
- Place a cartridge case in the die, ensuring it is fully seated.
- Insert the bullet into the case mouth, aligning it with the die.
- Slowly pull the handle of the reloading press to push the bullet straight into the case. Ensure the bullet is seated to the desired depth.
- Inspect the seated bullet to confirm proper alignment and seating depth.

## Disposal Instructions

- Dispose of any damaged or worn components in accordance with local waste disposal regulations.
- Do not dispose of the product in regular household waste. Check for local recycling programs or hazardous waste disposal options.
- Ensure that any hazardous materials, such as spent primers or powder, are disposed of safely and in compliance with local regulations.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the use of the CHAMBER TYPE BULLET SEATER DIES 7MM WSM, please refer to the manufacturer's website or contact their customer service directly.

## **Conclusion**

By following the safety guidelines and instructions outlined in this document, you can ensure a safe and effective experience with your CHAMBER TYPE BULLET SEATER DIES 7MM WSM. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these important safety measures.
