

# CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 6X47MM LAPUA BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

## Attributes

# CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6X47MM LAPUA BULLET SEATING DIE Safety Instructions

## Introduction

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6X47MM LAPUA BULLET SEATING DIE. This product is designed for precision bullet seating, primarily for benchrest shooters. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure that the product is used only by individuals who are knowledgeable about reloading and firearms.
- Always wear appropriate safety gear, including safety glasses, when using this product.
- Keep the work area clean and free from distractions to avoid accidents.
- Store the product in a safe place, out of reach of children and unauthorized users.
- Regularly inspect the product for wear and damage. Do not use if damaged.

## Specific Safety Precautions for Use

- Only use the die with compatible cartridges. This product is specifically designed for 6 x 47 Lapua cartridges.
- Ensure that the bullet seating die is properly installed and securely fastened to the reloading press before use.
- Do not exceed recommended load limits for bullets and cartridges.
- Avoid placing hands or any body parts near the die during operation to prevent injury.
- Be aware of the potential for accidental discharge. Always follow the basic rules of firearm safety.

## Instructions for Installation and Usage

### 1. Installation:

- Remove the bullet seating die from its packaging.
- Clean the die and the reloading press with a suitable solvent to remove any debris or oil.
- Securely attach the die to the reloading press by threading it into the appropriate mounting location.
- Adjust the die to the desired height, ensuring it is tightly secured.

### 2. Usage:

- Prepare the cartridge case by ensuring it is clean and free from obstructions.
- Insert a bullet into the case mouth, aligning it with the die.
- Use the closefitting seating stem of the die to push the bullet straight into the case until the desired seating depth is achieved.
- Inspect the completed cartridge for proper bullet seating and alignment before use.

## Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not discard the product in regular household waste. Instead, contact your local waste management facility for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the safe use of this product, please consult the manufacturer's website or contact their customer support for assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6X47MM LAPUA BULLET SEATING DIE. Always prioritize safety and proper handling of reloading equipment.
