

CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 6.5X284MM WINCHESTER BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

Attributes

- Name: [L.E. WILSON 6.5X284MM WINCHESTER BULLET SEATING DIE](#)

Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6.5X284MM WINCHESTER BULLET SEATING DIE

Introduction

Thank you for choosing the L.E. Wilson Chamber Type Bullet Seater Die. This guide provides essential safety instructions and usage guidelines to ensure your safety and the effective operation of the product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that you understand all safety instructions before using the bullet seater die.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling ammunition and reloading equipment.
- Keep the bullet seater die out of reach of children and unauthorized users.
- Regularly inspect the die for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding ammunition reloading and storage.

Specific Safety Precautions for Use

- Use only with compatible cartridges as specified (6.5 x 284 mm Winchester).
- Avoid using excessive force during operation to prevent damage to the die and ensure the safety of the user.
- Never attempt to modify the bullet seater die. Unauthorized modifications can lead to malfunctions and safety hazards.
- Ensure that the work area is clean and free from obstructions to prevent accidents during use.
- Do not exceed the recommended bullet seating depth as specified in your reloading manual.

Instructions for Installation and Usage

1. Installation

- Ensure your reloading press is securely mounted according to the manufacturer's instructions.
- Insert the bullet seater die into the press and tighten it securely.
- Attach the appropriate seating stem to the die, ensuring it is properly aligned.

2. Usage

- Prepare your cartridge cases by cleaning and resizing them as per standard reloading practices.
- Place a bullet into the case mouth, ensuring it is properly aligned.
- Raise the ram of the reloading press to engage the bullet seater die.
- Lower the ram slowly and steadily to seat the bullet into the case.
- Check the seating depth with a caliper to ensure it meets your specifications.
- Repeat the process for additional cartridges, ensuring each one is checked for proper seating.

Disposal Instructions

- Dispose of any damaged or unusable bullet seater dies in accordance with local regulations.
- Do not dispose of ammunition or reloading components in regular household waste.
- Contact local authorities or waste management facilities for proper disposal methods for hazardous materials.

Contact Information for Further Support

For safety inquiries or further assistance, please reach out to the manufacturer or your local distributor. Always keep this guide handy for reference.

Conclusion

By following these safety instructions and guidelines, you can ensure the safe and effective use of the L.E. Wilson Chamber Type Bullet Seater Die. Always prioritize safety and compliance with local regulations while enjoying your reloading activities. Thank you for your attention to these important safety practices.
